LIONEL TRAINS • 1999 PREVIEW

*A Letter from Lionel
Trains to Grow With*

We make trains, but we're all about people. A wide-eyed young boy finds his first Lionel under the Christmas tree. Two young friends argue the merits of Lionel versus American Flyer. A son spends precious time with his father. A grown man reminisces about such an experience in his own youth. Two adults, from different walks of life and different neighborhoods, meet on common and equal ground to share stories and ideas. These are the images of Lionel.

Famous people have purchased our products. But the Jones and the Smiths are the stars of our show. We make trains in Chesterfield, Michigan, United States of America. Some children get a gift of our trains even before they are born - and nobody ever outgrows them.

Our products are inspired by big, rugged machines. But they're all about fun and learning. We don't make trains to play with - we make trains to grow with. Kids develop imagination, skills, and a sense of accomplishment. Adults find diversion and release, and make friends among others of similar interests. And everybody has a good time along the way.

When you buy a Lionel you buy 100 years of experience at helping young and old alike enjoy the satisfaction of creation and control that is so unique to our products. There's a piece of history in every product we make. And a piece of Lionel in every customer who's ever owned one.

It is in that spirit that we have crafted this catalog. It showcases the products that we will produce during the first several months of 1999. But the real stars of this and every Lionel catalog are the customers, past and present, who collectively define the Lionel experience. Enjoy the journey!

Sincerely,
Gary L. Moreau
President

How To Reach Us

HEADQUARTERS

Contact Lionel headquarters by calling 1-810-949-4100 during business hours (Monday - Friday, 8 a.m. - 5 p.m. EST) and we will be happy to direct your call. The headquarters offices and Visitor's Center are located at 26750 23-Mile Road, Chesterfield, Michigan, 48051 - approximately 20 miles northeast of Detroit.

DEALER LOCATOR

Finding Lionel Authorized Dealers and Service Stations is as easy as calling 1-800-4-LIONEL. Or, you can check out our website at <http://www.lionel.com> for dealer information.

CONSUMER SERVICES

For questions regarding your Lionel products, anyone in the Consumer Services Department is available for your call. Call 1-810-949-4100, ext. 1367, 1410 or 1409. Our representatives have been with Lionel for many years and are experienced to address your concerns. For more information on this department, see page 5.

VISITOR'S CENTER

The Lionel Visitor's Center is open year-round, Wednesday through Saturday (hours listed on page 4). Call 1-800-949-4100 ext. 1211 for reservations and more information on this free tour.

CLUBS

Lionel currently sponsors the Lionel Railroader Club, the Kids Club, the Ambassador Board, and the Century Club. Clubs are always the perfect way to share your love of model railroading with others! Call 1-810-949-4100, ext. 1413 or 1411 (ext. 1256 or 1219 for the Century Club) for more information.

WEBSITE

Have you checked out our website, Lionel Station? You should! It is always being updated, refreshed, and tailored to fit your needs. Visit us at <http://www.lionel.com> to learn about upcoming shows and events, read about Lionel history, and browse through our NEW on-line store! You can also e-mail us at LionelMI@aol.com.

WARRANTY

We always back our products! You can register your warranty on-line, or by sending in your warranty registration card. Lionel quality is second to none, but should you ever have a question about your products, feel free to call us at 1-810-949-4100. We're here to help you!

Visitor Center

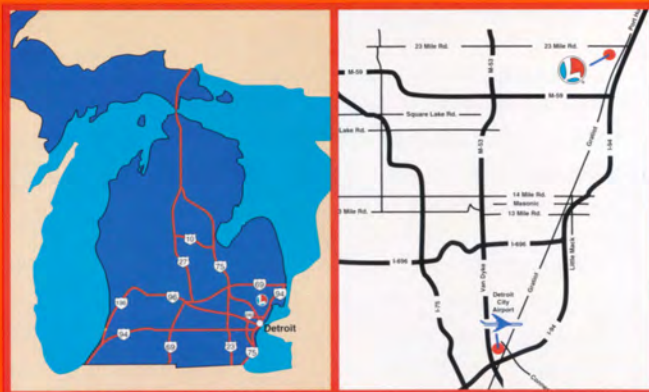

YOU'LL GET A WARM WELCOME AT THE LIONEL VISITOR'S CENTER. . .

Visitor's Center

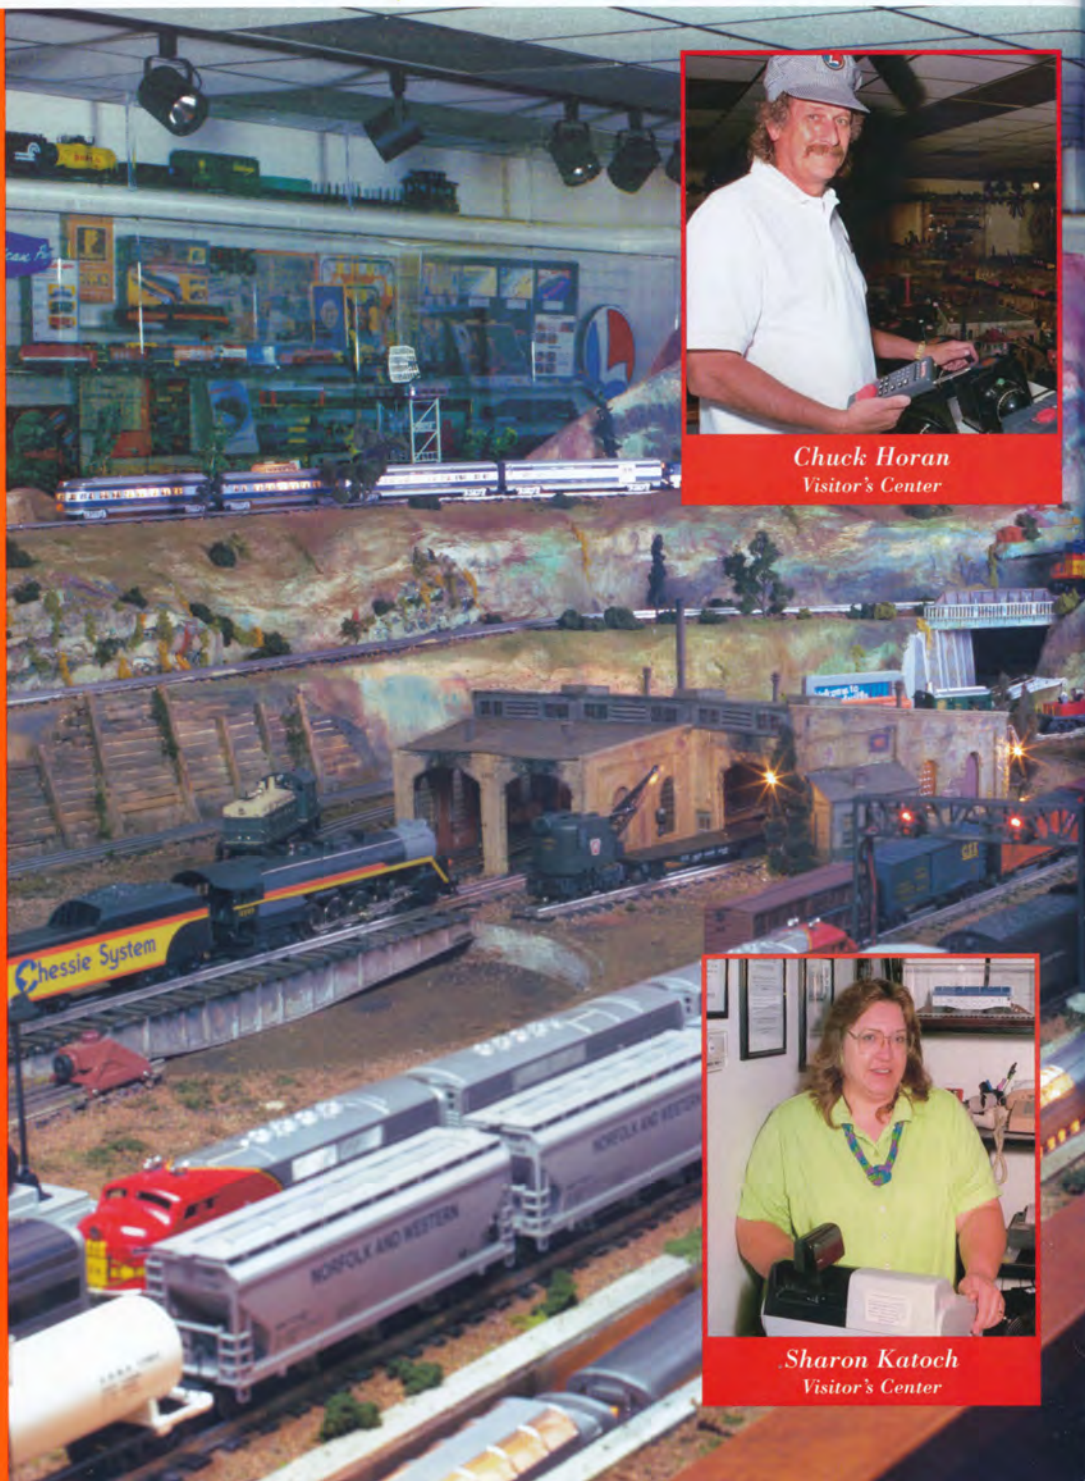

Kids of all ages visit Lionel year-round. Why? Because there is a fabulous Visitor's Center designed with the train enthusiast in mind!

The Lionel Visitor's Center has been open to the public since 1992. The project began as Lionel saw the need to make toy trains touchable to kids of all walks of life. So about 45 employees put in extra hours after work as well as on weekends - all volunteer time - to create what is our Visitor's Center today. It took approximately six months, not to mention countless hours to make this the perfect tour for all. The 560 square foot layout is designed for hands-on excitement, complete with 18 trains and over 30 accessories you can operate. There is also a special kids section to allow the little ones a hands-on train experience. Finally, as a special treat for history buffs, there is a 52-foot display showcase full of artifacts from Lionel's past 100 years. It's history, it's tradition, it's magical fun!

The tour begins with a fascinating 10 minute video highlighting points of interest about Lionel, and it ends with a trip to our gift shop, full of mementos to mark the occasion.

This is a FREE Visitors Center tour and it's open to the public year-round. Call 1-810-949-4100, ext. 1211 for reservations today! Tour hours of operation are Wednesdays and Thursdays at 10 a.m., 3 p.m. and 4 p.m.; Fridays at 10 a.m., 1:30 p.m. and 2:30 p.m., and Saturdays at 9 a.m., 10 a.m., 11 a.m. and noon. The Visitor's Center Gift Shop is open Tuesday - Friday from 1:30 p.m. - 4:30 p.m. and Saturday from 10 a.m. - 12:30 p.m.

. . .AND HELPFUL ANSWERS FROM CONSUMER SERVICES!

Lionel is about people. It's about sharing the love of model railroading with everyone. It's a place where dreams endure for generations and fun lasts a lifetime. Every day that we are in business, we strive to serve our customers and the consumers well. We pledge to create a quality product, and to back it up with first-rate support service.

Outstanding service is the goal of the Lionel Consumer Services Department. There are 12 consumer service representatives and technicians with over one hundred collective years of service who respond to calls and questions on a daily basis. We know that our product is top quality, and the consumers who buy it want immediate response to their questions and concerns. They get it!

Lionel has been in business for nearly 100 years. During all of that time we have backed our products with warranties, we have an endless inventory of spare parts, and there are representatives who will walk you through everything from a basic train layout set up to restoration of an older product. The staff in the Consumer Services Department is friendly, helpful, and they CARE about you.

Our Service Station networks consist of nearly 500 Lionel dealers in the U.S., Canada and Europe - many of which have been Service Stations for decades. They are fantastic partners of Lionel, they are close to the train public, and often times they can provide immediate repair service for the customer.

At Lionel, it's all about people and it's all about sharing the fellowship of model railroading. We are touchable and would love to hear from you. Call us, visit us on our website, write us a letter or stop by the Visitor's Center. We want to hear directly from our customers so that we can continue to do what we do best - make great model trains and help you enjoy the love of your hobby!

Clubs

For over 22 years, Lionel has sponsored the Lionel Railroader Club. Over the years, membership benefits have been enhanced and membership numbers have increased. This is a fantastic way to share your love of model railroading with other train enthusiasts. Often times, this is how long lasting friendship begin!

Lionel also introduced a NEW club in 1997: the Lionel Kids Club, tailored specially for beginners to the hobby. The Ambassador Board, a group of volunteers who want to share their love of model trains by introducing others to them, and The Century Club, gearing up toward Lionel's Centennial anniversary, are two other ways to share their hobby. Learn more about these organizations by calling 1-810-949-4100, ext. 1413 or 1411.

In addition to the internal Lionel clubs available to join, Lionel also supports many other independent national, regional and local train associations. You'll see Lionel at many of the national conventions and special train meets. If you are interested in learning more about these organizations, the contact information is below.

LIONEL POSTWAR CELEBRATION SERIES

And what a celebration it is! We knew that the postwar period was one of the most studied and celebrated periods in our 100-year history. But we could never have predicted the enthusiasm with which this series has been greeted by the legions of people who so fondly remember this era. In a year in which a hit movie put World War II back in the national spotlight, Lionel has been re-creating many warm and wonderful memories of the period marking that epic war's conclusion.

Change is constant. We can't stop it. And we really don't want to. But Lionel trains have always been a medium for sparking our imagination and escaping the stress and anxiety of everyday life. Your layout is your world. Nothing happens unless you want it to. You're in control.

Which is why we wanted to recreate some of our favorite products from the postwar era. Reality will eventually make such a series impractical to make. Things like our Pullmor open-frame motors, for example, will eventually disappear from our factory floor. But until that day comes, we stand proudly behind our history and the products that define it. Call us old-fashioned if you must, we like this stuff!

So here it is - Volume II of the Lionel Postwar Celebration Series. Each re-creation has its roots in Lionel history, but has been improved to reflect the best of what we've learned since the original first graced our catalogs. Each product is decorated with a handsome builder's plate and comes in a unique and special Celebration Series box. No club membership is required, but based on response to date, we strongly urge you to get your order in early. And remember, no one knows what the future holds, but it's never too late to have a great childhood!

Here's

REDEFINING THE STANDARD!

Every once in a great while, a development comes along that redefines an industry. The Lionel precision-control Odyssey motor is just such a milestone. Just as the jet engine forever changed the course of aviation, the Lionel Odyssey motor will redefine what model railroaders expect from their locomotives.

The Odyssey is an open-frame motor, so you can watch it work just like the Pullmor motor that we've all found so fascinating in the past. And talk about power and torque - we've pulled a long string of cars smoothly as slow as 2 mph in scale speed! And due to the unique operating design of this motor, even if you hit a rough spot when crawling along, the electronic brain automatically compensates and delivers enough additional power to get it over the hump - and then adjusts back to the original setting. If you haven't seen it, you won't believe it!

It's a true Lionel. Developed exclusively for our use and built in our own factory in Chesterfield, this is the motor that will set the standard for the new millenium in O gauge model railroading.

The Custom Series:

If you saw the first one, you'll want this one. Even we're surprised at how much we like to run our Custom Series GP-9. It's just plain neat! And the special "hot rod" RailSounds sound chip is a gas - if you'll excuse the pun. It's fun - and that's what Lionel is all about!

Note: We like our Custom GP-9 at the front of just about any cars. But if you like a little more coordination to your trains, check out the new Custom Series consist on page 36.

The Phantom II

What did go on in that farmhouse in Pratt's Hollow, Missouri? What did the members of this highly secretive society have in mind? Did they design these locomotives for fun? What if the railroads had built them? What would they have looked like? How might they have changed rail-roading history? Look, listen, and decide for yourself!

"Fellow citizens, we cannot escape history."

--Abraham Lincoln, 1862

Some say it was the greatest war in American history. It was the *only* war fought on American soil between Americans. It was between the North and the South; the Blue and the Gray. It was the Civil War.

The years were 1861-1865; 3 million fought and 600,000 died. Whatever their personal beliefs, all the participants in this conflict were passionate and steadfast in their commitment. Brothers fought brothers. Families were torn asunder. Its legacy would endure for generations.

Lionel celebrates this historical era with two train sets, each led by our famous General steam engine. Poignantly capturing the spirit and drama, these sets will take their own place in history.

American Civil War Series - Union

For a Good Cause!

All of us in the Lionel family are grateful to the hard-working men and women of the many not-for-profit organizations that help to make America the great country that it is. So we're launching a new series that will help them get their message out

and financially help their efforts. Lionel will make a contribution to each organization equal to 10% of our sales of their car. Here's your chance to do a good deed and enjoy your favorite hobby at the same time. Besides, this is a great looking car!

First in a New Series!

Design Your Own Lionel Car!

Mark your place in Lionel history and impress your family and friends. One unit of each run in this series will contain a special certificate that entitles the holder to design their own car for the series. We reserve the final say on design, of course,

but your car - with your name on it - will appear in an actual Lionel catalog. Talk about dreams coming true!

First in a New Series!

Michael Stanard is an award-winning graphic designer who is responsible for the development of many Lionel products and catalogs. He has also created many designs for other well-known companies, including his trademark design for world-famous Louisville Slugger bats.

Michael is also a multi-engine instrument rated pilot and created the graphics for his vintage 1957 Piper Apache, which he chose as the theme for his "Lionel Customer Designer" car.

The parallels are many. . . Christian Frederick Martin left the land of his birth in 1833 to establish the C.F. Martin & Co. at 196 Hudson Street, New York, New York. Lionel is proud to honor this legendary craftsman with a flatcar carrying simulated loads of four exquisite woods used in the creation of legendary Martin guitars (ebony, rosewood, mahogany and sitka spruce).

RailSounds Boxcars

Have you ever wished you could enjoy the rich, majestic tones of Lionel RailSounds with your vintage Lionel locomotives? Now you can! These boxcars include our latest RailSounds system and have been acoustically optimized for the most vibrant and clear

sound quality. The "steam" car is encoded with generic sounds associated with a classic steam locomotive, while the "diesel" car is encoded with generic modern diesel sounds. Most hobbyists agree - this is the best sound system in the industry!

The Lionel Route 66 Cafe

The latest creation from the magical workshop of special effects modeler and toy designer Mike Fulmer. This is the first in a series of imaginative accessories Mike has created for our Route 66 collection. Crafted of intricately detailed cast resin, this cafe is sure to spark your imagination and bring a smile to the faces of family and friends. Put it on your layout - or let it stand alone in a favorite spot in your house or office. It's sure to bring you pleasure every time you "drive" by!

Item Number: 6-22997

Suggested Retail Price: \$159.95

**Hand-Held
Microphone
Included!**

No. 465-99 Sound Dispatching Station

It's a real loudspeaker system. The original 465, introduced in 1956, was a favorite among thousands of young boys of the era. The hand-held microphone lets you record, playback and broadcast messages for all to hear. If you know someone who likes to "play" with their trains, this is the accessory for them. It's been upgraded with modern electronics, but it still has all the simple fun of the original.

Quality Crafted Components:

Detailed Molded

Bold, Stirring Sounds:

Microphone Works as Both

Intercom and Recording Device

Dimensions: 11" x 5" x 6 1/2"

Item Number: 6-22999

Suggested Retail Price: \$99.95

Highway Barrels

Six plastic barrels, orange with silver reflective tape.

Dimensions: 1" H. Each
Item Number: 6-32922
Suggested Retail Price: \$14.95

Construction Signs

Six construction signs.

Dimensions: 2 1/4" H. Each
Item Number: 6-32902
Suggested Retail Price: \$19.95

Die-Cast Billboard

Die-cast frame with life-like catwalk.

Dimensions: 6 1/2" x 3 1/2" x 7"
Item Number: 6-32900
Suggested Retail Price: \$35.95

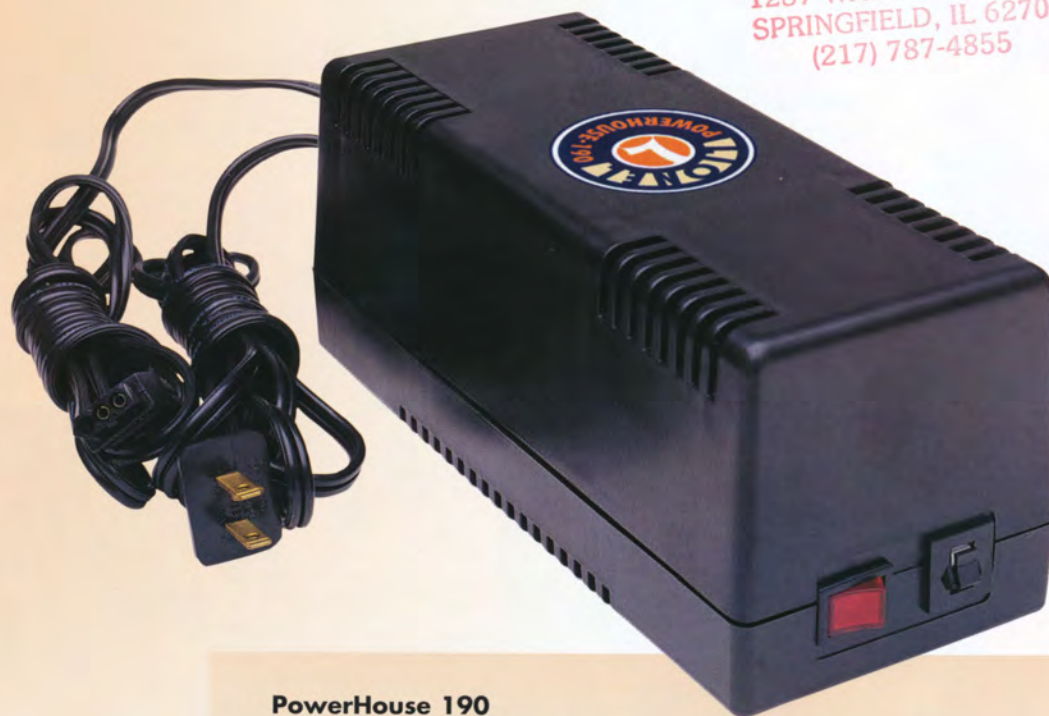

Electric Coaling Station

Stamped metal tower, house and armature on a molded resin base. Chain conveyor pulls metal bins through coal and up the elevator. A small, black metal chute on the other side of the house drops the coal into a Lionel gondola or hopper. First introduced in 1938, this version is enhanced with a plastic, tilting bin holding coal to be loaded.

Dimensions: 10" x 6 1/2" x 12"
Item Number: 6-32921
Suggested Retail Price: \$159.95

PowerHouse 190

It's here - 190 watts of continuous output at 18 volts. Even if you don't need it - most people don't - it's nice to know it's there. A UL® listing is pending, so you know it's safe. And it has 100 years of Lionel experience standing behind it. Use up to four of them with the new ZW for a whopping total output of 760 watts.

Please note: The PowerHouse 190 can be used with an existing Lionel TrainMaster Command Base, . . . but an existing 135 PowerMaster will only allow 135 watts through to the tracks. A new 190 PowerMaster will be released in the near future.

Item Number: 6-22983

Suggested Retail Price: \$89.95

At Lionel we are committed to providing our customers with superior-quality products and service. It is a commitment shared by our many Lionel Authorized Dealers and Lionel Authorized Service Centers around the country.
