LIONEL CLASSIC TRAINS VOLUME 1 2000

“Come on boys - I'll take you for a trip . . .

... thru my factory ..."

*"Our goods should not be conflicted
with any other on the market –
they are in a class by themselves."*

LIONEL CATALOG - 1902

A CENTURY OF LIONEL TRAINS

Welcome to Lionel's 100th Anniversary catalog! Whether you have been with us for most of that period, or are just discovering Lionel for the first time, we hope you delight in the pride and effort that went into producing this milestone catalog, the largest in our company's history.

Founded in 1900 by Joshua Lionel Cowen, the Lionel Manufacturing Company started as a producer of electrical novelties. By placing a small electric motor under a wooden cheese box, Cowen created an animated window display in which goods could be featured in a retailer's window. Legend has it that consumers were more interested in the window display itself, rather than the goods it featured. Cowen, ever the entrepreneur, saw the opportunity and began marketing his "Electric Express" to consumers. Hence, the first Lionel Trains were born. The rest, as they say, is history.

And what a history it has been! It is not often that a company survives one hundred years manufacturing the same basic products on which they were founded. To what is owed Lionel's strength and success through the Great Depression, two World Wars, and many times of economic uncertainty? The answers are simple... *families* and *fun*.

While performing research for this catalog, we continually stopped to read the many catalogs, advertisements and other paper items in our archives that reach back to the founding days of the company. We noticed that many of the titles, headlines and catalog descriptions we read were focused on sharing all the enjoyment of Lionel Trains among family members. We also found that many of these declarations were just as appropriate today as they were years, and sometimes decades, ago. As a result, we've highlighted some of our favorites, which you will find dispersed throughout this catalog. While some may sound a bit dated, we believe they provide a wonderful time machine into our company's past.

Everyone at Lionel is honored that you have chosen to be with us as we celebrate our Centennial, and we hope that you have discovered, or will discover, the reasons why Lionel and the trains we produce have become endeared to so many.

CENTENNIAL STARTER SET

Lionel starter sets are famous the world over for their durability, play value, and just plain fun. What better way to start someone off on a lifetime of operating, collecting and enjoying Lionel trains than with this limited edition Centennial Starter Set? Including great features such as an all die-cast steam locomotive with lights and smoke, fun rolling stock with premium decoration, and everything you need to get up and running, this set will be a cherished addition to any household.

Help celebrate 100 years of learning, fun and railroad magic with Lionel's exclusive Centennial Starter Set.

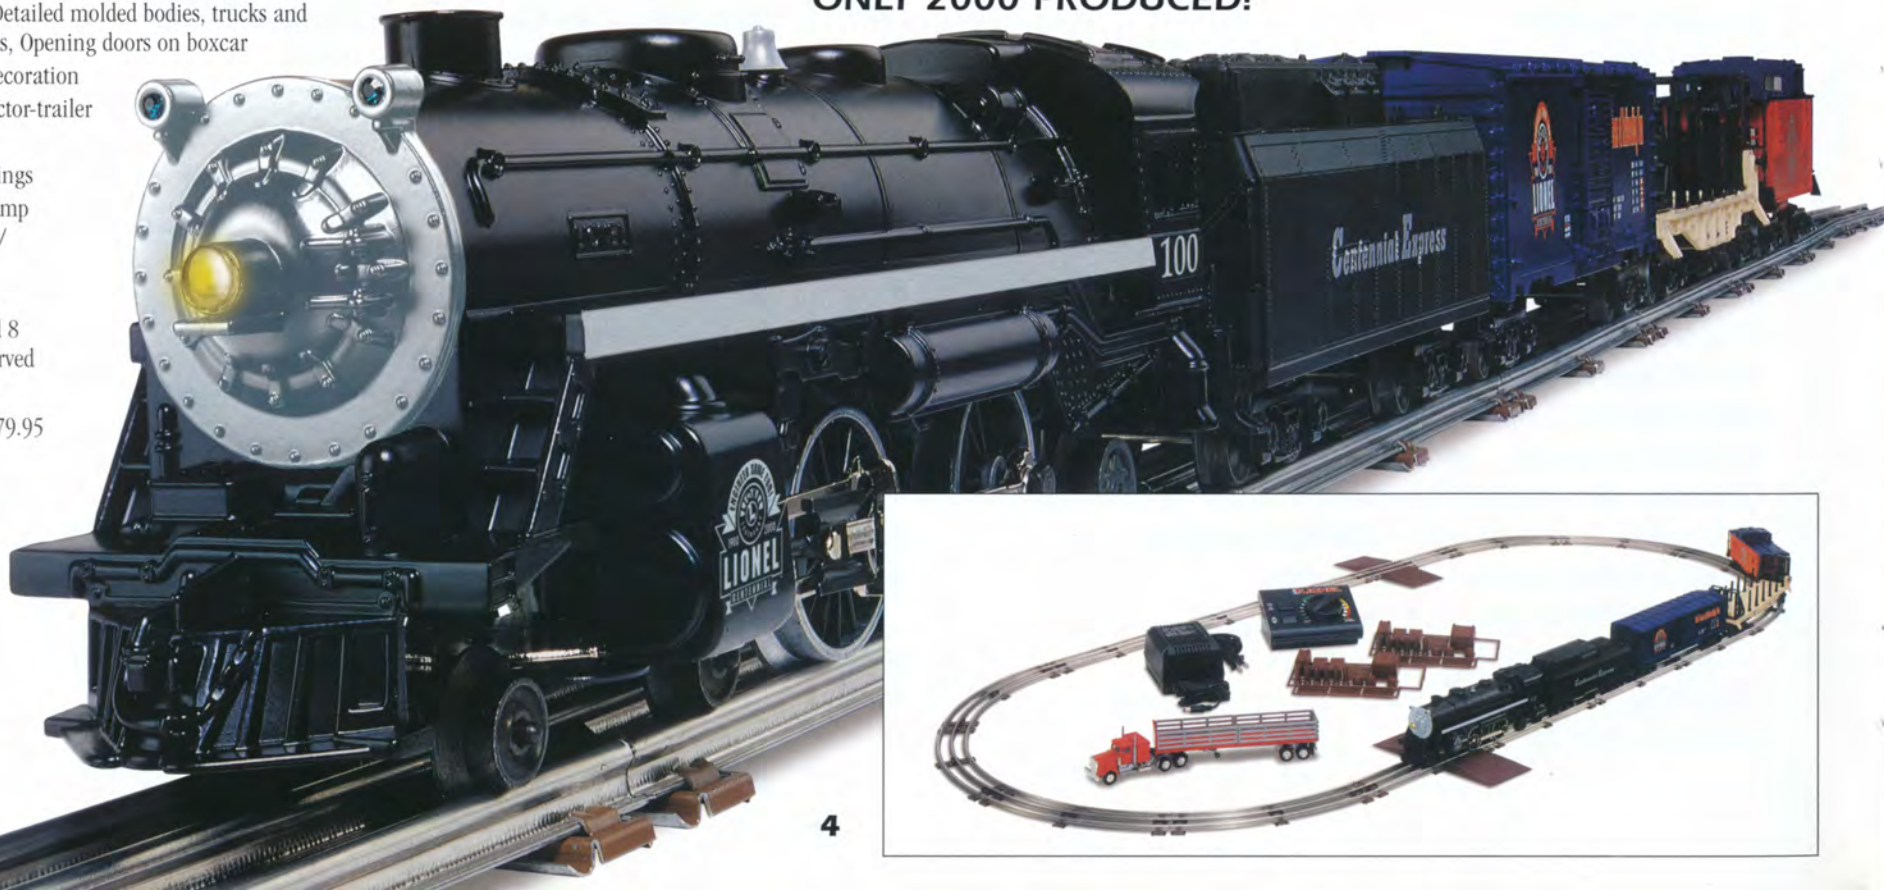

Features:

- Die-cast steam locomotive with precision can motor, transformer controlled forward, neutral and reverse, operating headlight and puffing smoke unit
- Detailed molded tender body with stamped metal frame and operating whistle
- Rolling stock features sturdy metal wheels and axles, Detailed molded bodies, trucks and brake wheels, Opening doors on boxcar
- Premium decoration
- Die-cast tractor-trailer
- Crate load
- Grade crossings
- 40-Watt/3-Amp transformer/controller
- 8 pieces of straight and 8 pieces of curved 0-27 track

The best way to begin your journey into model railroading!

SOUTHERN PACIFIC DIESEL FREIGHT SET & PENNSYLVANIA FLYER SET

Two of the world's most famous railroads are featured in these ready-to-run starter sets. The Southern Pacific, with its beautifully decorated black widow scheme RS-3, is a wonderful entry into the world of Lionel. With lights and sound, and rounded out with a boxcar, tank car and caboose, this diesel set is a sure winner under any Christmas tree.

Take a ride on the Pennsylvania Railroad with the all-new Pennsy Flyer set. Pulling out of the freight station is a powerful die-cast steam locomotive with lights and real life smoke. You can haul whatever you would like in the nicely decorated boxcar, or on the sturdy flatcar.

Pennsylvania Flyer Set

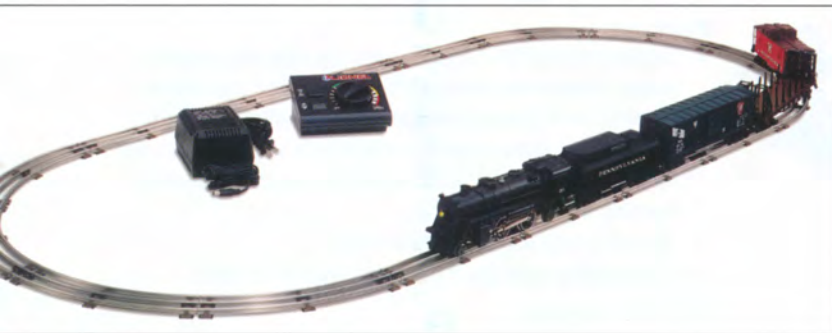

Features:

- Die-cast steam locomotive with precision can motor, transformer controlled forward, neutral and reverse, operating headlight and puffing smoke unit
- Detailed molded tender body with stamped metal frame
- Rolling stock features sturdy metal wheels and axles, Detailed molded bodies, trucks, brake wheels and operating couplers, Opening doors on boxcar
- 40-Watt/3-Amp transformer/controller
- 8 pieces of straight and 8 pieces of curved 0-27 track

(6-21971) \$149.95

"There's no thrill like his first Christmas with Lionel Trains"

Family Fun Freight Sets!

NEW YORK CENTRAL FLYER FREIGHT SET & FRISCO FREIGHT SET

Two of the most popular set configurations of all time are offered with new, exciting decoration and features in the New York Central Flyer and Frisco Freight sets. The New York Central set, a classic railroad name powered by a die-cast steam locomotive, offers the beginner a little bit of everything. From operating headlights, puffing smoke, tractor-trailer, grade crossings, crate loads, and now, for the first time, optional Lionel RailSounds, this set offers fun AND value. You will be amazed at the realistic, digital steam whistle, synchronized chuffing, crew announcements and steam sounds of RailSounds.

The Frisco Freight Set is dominated by its colorful GP-7 diesel locomotive. With an impressive array of brightly colored rolling stock, the Frisco set is as fun to look at as it is to play with. Whether you like steam or diesel, these sets offer fun and exciting times for all!

LIONEL VILLAGE TROLLEY SET

Hop aboard the Lionel Village Trolley and take a ride through 100 years of Lionel history. Once aboard, you will see some pretty impressive people. Up there in front, right behind the conductor, is Joshua Lionel Cowen, founder of Lionel, with his young son Lawrence seated right behind. Roy Cohn is next in line, followed by former president, General John Medaris. As you make your way towards the back, you will find Thomas Pagano, assistant superintendent in charge of parts production seated right in front of Mark Harris, Lionel's first sales manager. Last, but not least, there is Ronald Saypol in the back of the trolley, a former Lionel president. It should make for an interesting ride through history!

Features:

- Detailed molded trolley powered by a maintenance free can motor with directional and interior lighting, window silhouettes, and direction activated bumpers
- Transformer/controller
- 2 molded track bumpers
- 4 pieces of straight and 8 pieces of curved 0-27 track

100TH ANNIVERSARY GOLD 700E J-1E HUDSON WITH DISPLAY CASE

It has been said that Josh Cowen's favorite locomotive was the New York Central's J-Class 4-6-4 Hudson. The pride of the NYC's fleet, it could be seen pulling both passenger cars and freight along its namesake river.

With its classic steam locomotive styling, there is little doubt as to why the Hudson was picked as the model for Lionel's landmark 1937 700E Hudson. A marvel of its time, it was a perfect O scale replica unlike any the marketplace had seen. And at \$75.00, it had to be!

As the centerpiece of our 100th Anniversary Centennial celebration, we are offering the 700E once again, but this time with something unique - brilliant 24 karat gold plating, fitting for this special occasion.

Besides the die-cast gold-plated locomotive and tender bodies, you find gold- and platinum-plated accents. Additional details will remain black, to provide contrast against the bright gold bodies. All of Lionel's traditional operating features, including a Pullmor motor, RailSounds and Command Control are offered.

There is only one chance in a lifetime to celebrate Lionel's Centennial. And there is only one true 700E. Don't miss this unique offering at this unique time in our history!

- 24 karat gold and platinum plating, Die-cast boiler, frame and tender, Pullmor motor, Spoked drivers with metal rims, Wireless tether, TrainMaster Command equipped, RailSounds with TowerCom, CrewTalk and DynaChuff, Puffing smoke unit, Operating headlight, Directional lighting, Firebox glow, Scale front coupler, Wood display case with cover
- Minimum radius: 0-42
- Scale: O-Gauge
- Length: 24 3/4"

Lionel, the Industry Leader in Die-Cast, Articulated Steam Locomotives

NORFOLK & WESTERN CLASS A ARTICULATED STEAM LOCOMOTIVE

Continuing in a new line of highly detailed, smooth running Lionel articulated steam locomotives comes the Norfolk & Western Class A. Built in N&W's famous Roanoke shops from the late 1930's to 1950, the Class A set new speed records for steam locomotives. Weighing in at close to 600,000 pounds, these behemoths were needed for speed and power through the mountainous areas of N&W's routes and the ability to haul heavy tonnage at speeds of 60 mph on the flat areas of the route. The Class A's were so successful, that N&W built 43 in total. They proved to be worth their weight in gold.

Lionel brings this impressive locomotive to life with the all-new N&W 1218 Class A Steam Locomotive. Made from completely new tooling, this locomotive brings power and realism to your layout. Powered by a brawny Pittman® motor, the die-cast locomotive and tender glide effortlessly across your tracks. Its features are seemingly endless. Included are Command Control, Class A Articulated RailSounds, a swing-out scale coupler on the pilot, wireless tether, brakeman's doghouse on tender, red firebox glow, lighted number boards, separately applied metal details, and much, much more. The 1218, restored to its original splendor, was put into excursion service in 1987, and is recreated yet again as only Lionel can. Do not let this opportunity go by the wayside. Rush to your dealer and order the ONLY Class A with Lionel quality and features.

Features:

- All-new die-cast boiler, frame and tender, TrainMaster® Command controlled, High Torque Pittman® motor with momentum flywheel, Articulated RailSounds 4.0 with TowerCom™, CrewTalk™, DynaChuff™ and authentic Class A recordings, Wireless Tether™, ElectroCoupler on rear of tender, All 12 driver wheels powered, Fan driven smoke unit, Traction tires, Swing-out scale coupler on pilot, Additional front coupler supplied for double-heading, Hand-applied metal details on boiler, Operating headlight, Illuminated number boards, Directional lighting, Red firebox glow, Illuminated marker lights, Brakeman's doghouse on tender, Engineer and fireman figures
 - Minimum Radius: 0-72 Scale: 0-Gauge
 - Model: 1218 Length: 31 1/8"

"Dad - They're a million miles ahead of everything - these LIONEL Trains"

1950

The Finest Sounds, Control System and Craftsmanship Available Anywhere!

BALTIMORE & OHIO EM-1 2-8-4

While articulated locomotives are most often associated with western railroads, the eastern roads had their share of these incredible leviathans. Considered the largest and finest power on the B&O, thirty EM-1's were built in 1944 and 1945 to haul coal traffic over their Cumberland Division. Even though tunnel and bridge clearances on the B&O were tight, the locomotive's designers utilized every possible square inch of space to maximize power while still operating within the clearances of B&O's main lines.

Lionel's new scale model captures all the detail of the original, along with the features you've come to expect: Die-cast construction, Command Control, Pittman motor and Articulated RailSounds.

Features:

- All new Die-cast boiler, frame and tender, Wireless tether, TrainMaster Command equipped, High Torque Pittman motor, Articulated RailSounds 4.0 with TowerCom, CrewTalk and DynaChuff, All 16 driving wheels powered, Fan driven smoke unit, Traction tires, Operating headlight, Directional lighting, Red firebox glow, Engineer and fireman figures, Pilot with optional scale or Lionel front coupler for double-heading
- Minimum radius: 0-72
- Scale: O-Gauge
- Length: 32 1/4"

"Nothing like it on the market"

1909

Scale Fun to Run!

HARRIMAN CONSOLIDATION 2-8-0

Through the first decade of the Twentieth Century, the 2-8-0 Consolidation was the standard wheel arrangement for most mainline freight steam locomotives. Soon after, the Consolidation was relegated to switching and branchline use, where they enjoyed a long career, with some lasting well into the final days of steam in the 1950's.

Our new scale model of the Harriman-type Consolidation was one of the first designs developed by the Associated Railroads in 1902. Many of Lionel's finest features are included, such as Die-cast construction, and optional Command Control and RailSounds. Offered in prototypical Union Pacific and Southern Pacific road names, these locomotives will look great hauling anything from crack mainline freights to local mixed trains on a remote location on your layout. And even though scale-sized, the Consolidation is well-suited for either Lionel's Standard O or traditionally-sized rolling stock.

Features common to both Command and Traditional versions:

- All new die-cast boiler, frame, tender and tender trucks, Metal tender frame, drawbar, engine side rods, handrails and ladders, Illuminated headlight, tender back-up light and marker lights, Traction tires, Puffing smoke unit, Engineer and fireman figures

Additional features on Command versions:

- Command controlled, RailSounds with TowerCom, CrewTalk and DynaChuff, ElectroCoupler on rear of tender, Directional lighting

Additional features on Traditional versions:

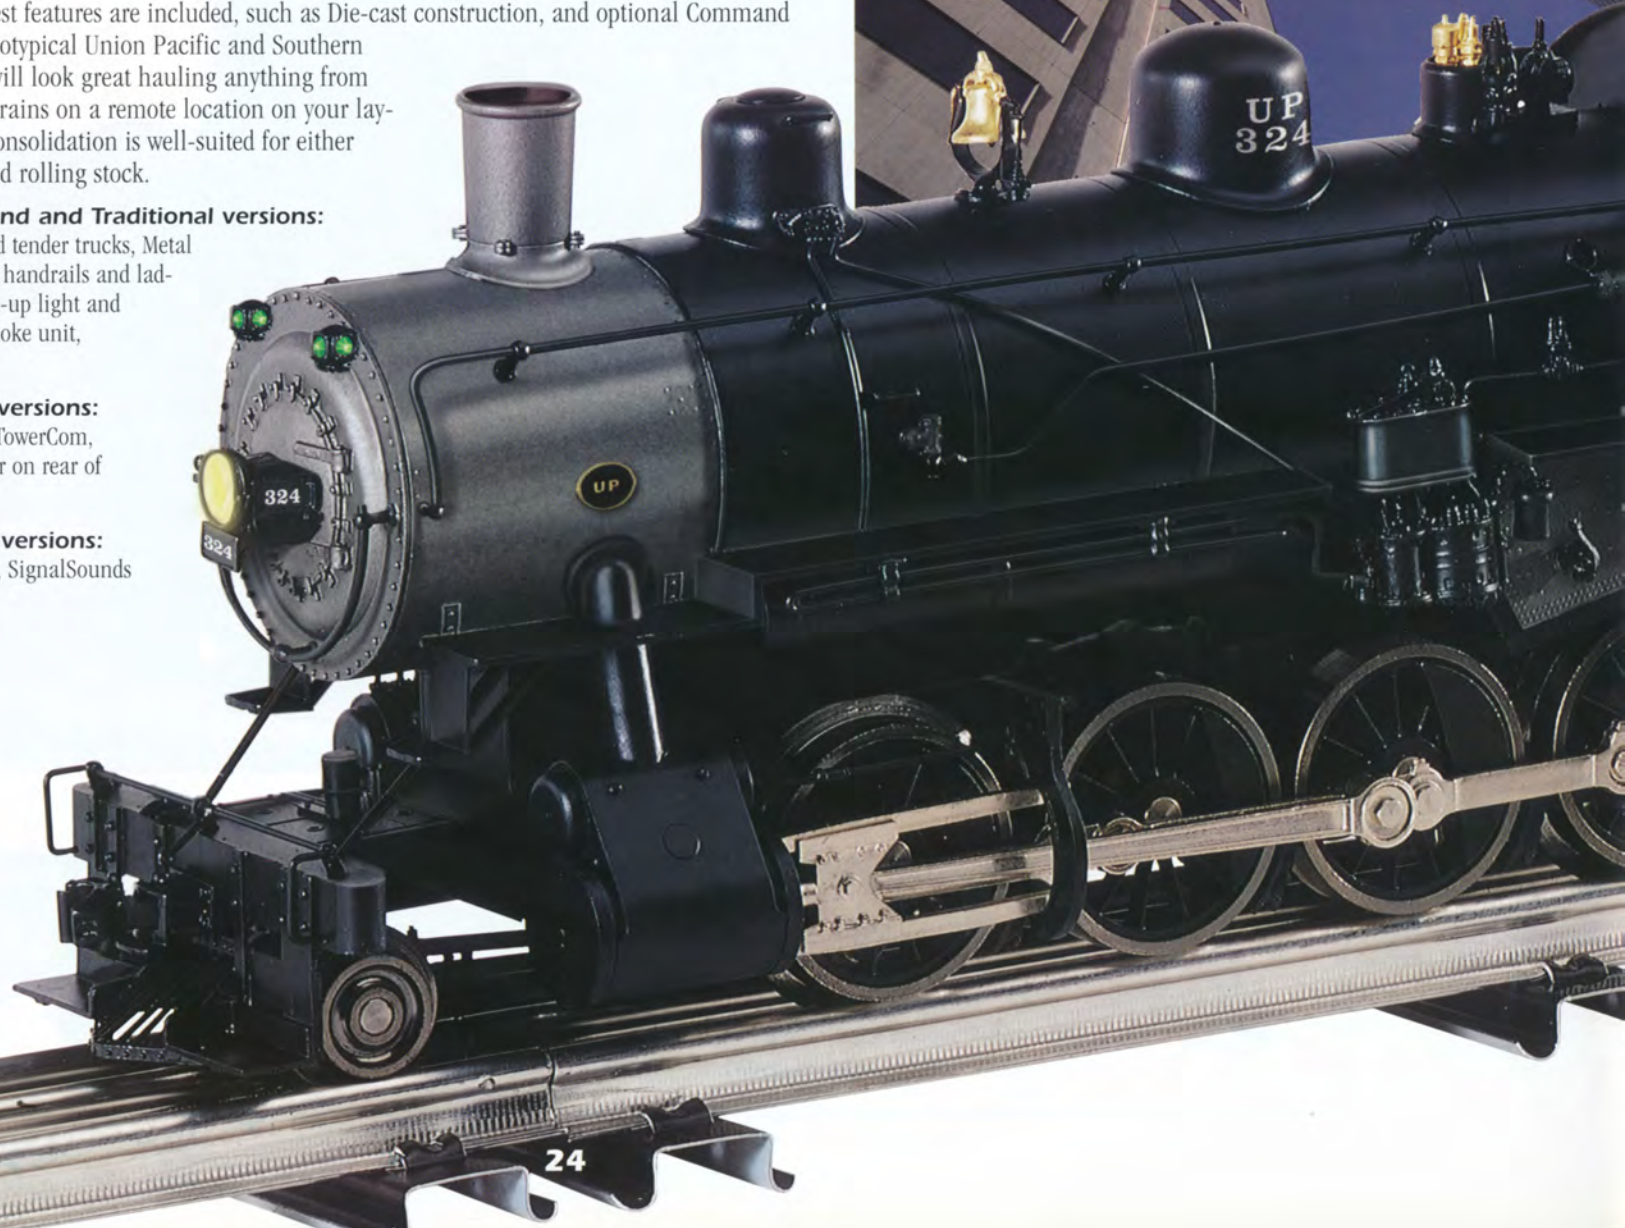

- Command and RailSounds upgradeable, SignalSounds with bell and whistle, Magnetic coupler
- Minimum radius: 0-31
- Scale: O-Gauge
- Length: Approximately 20"

"The leaders of Lionel's 'O' gauge locomotives – will pull your railroad train with power to spare"

1933

4-6-2 PACIFIC STEAM LOCOMOTIVES

Popular for their medium build and substantial pulling power, the 4-6-2 Pacific style steam locomotives were the workhorses of most railroads. Lionel's newest version of this exciting locomotive is offered in two new popular road names, the venerable Union Pacific and Baltimore & Ohio. Both railroads used the Pacific style engines for numerous tasks, and combined, owned more than 400 of various types. Perfect for medium to large layouts, these Lionel Pacific locomotives are a great addition to any collection.

Features common for both Command Control and Traditional versions:

- Die-cast boiler, tender body, locomotive frame, trucks, operating couplers (rear of tender) and pilot truck, Durable can motor with momentum flywheel, Puffing smoke unit, Operating headlight, Traction tires, Red firebox glow.
- Minimum Radius: 0-31 Scale: 0-Gauge
- Model: 3344 Length: 19"

Additional features included on Command versions:

- Command controlled, RailSounds with CrewTalk and TowerCom, ElectroCoupler on rear of tender, Direction activated lighting on rear of tender

Additional features included on Traditional versions:

- Command and RailSounds upgradeable, SignalSounds with bell and whistle, magnetic coupler

"At last! A real railroad whistle for model trains"

1935

ATLANTIC

A Beautiful Locomotive to Grace Your Railroad!

E6 Atlantic: The Lindbergh Special

June 11, 1927: Two films of Charles Lindbergh's triumphant return to America were rushed from Washington to a New York City movie house via both train and airplane to assure timely viewing of America's hero. Pennsy's choice for the competition was the Atlantic 4-4-2 number 460. Reaching speeds of 115 m.p.h., the 460, with two cars in tow, made the 216 mile dash in only 175 minutes. Since the film was developed en route, the copy delivered by the E6 beat that of its counterpart on the airplane.

Lionel is also proud to offer two other Atlantics in prototypical road names, the Baltimore & Ohio and the Santa Fe.

Features common to both Command and Traditional versions:

- All new die-cast boiler, frame, tender and tender trucks, Metal tender frame, drawbar, engine side rods, handrails and ladders, Operating headlight, marker lights and firebox glow, Traction tires, Puffing smoke unit

Additional features on Command versions:

- Command controlled, RailSounds, TowerCom, CrewTalk, ElectroCoupler on rear of tender, Directional lighting

Additional features on Traditional versions:

- Command and RailSounds upgradeable, SignalSounds with bell and whistle, Magnetic coupler
- Minimum Radius: 0-31

ALL NEW
TOOLING!

Absolute Power for Your Pike!

SD-90 MAC DIESEL LOCOMOTIVES

Lionel's newest, largest diesel locomotive, the SD-90 MAC is destined to go down as one of the most exciting, highly detailed diesels ever built. From the big things, like its scale-dimensioned body, realistic die-cast fuel tank and die-cast trucks, to the small, such as the separately-applied windshield wipers and handrails, opening cab doors and diamond safety tread on its walkways, this locomotive will impress even the harshest critic. Additional features such as Command Control, authentic SD-90 RailSounds, fan driven smoke and directional lighting make this new locomotive a must for any serious operator or collector. Bring the power of EMD's 80-foot, 6,000 horsepower SD-90 locomotives to your layout today!

Lionel Centennial SD-90 MAC

Lionel's Centennial Series ends with this stunning new SD-90 MAC diesel locomotive. Featuring Lionel's first logo and authentic colors, this locomotive caps an historic 100 years of great Lionel fun. Whether you have collected all of the Centennial locomotives or not, this is the one you will not want to miss!

Features common to both Command and Traditional versions:

- Dual vertical can motors with momentum flywheels, Die-cast trucks, operating couplers, fuel tank and pilots, Stamped metal chassis and handrails, Detailed molded body, Traction tires, Fan-driven smoke unit, Finished cab interior, Engineer figure, Separately-applied grab irons, handrails and snowplow

Additional features on the Command versions:

- Direction activated lighting, RailSounds with CrewTalk and TowerCom, ElectroCouplers

Additional features on the Traditional versions:

- Command and RailSounds upgradeable, SignalSounds with bell and horn, Magnetic couplers
- Minimum Radius: 0-31
- Length: 20 1/4"

"The finest model diesels in the world!"

1953

DASH 9-44CW DIESEL LOCOMOTIVES

General Electric's Dash 9-44CW is one of the most identifiable locomotives to ever run the American rails. Generating close to 4,500 horsepower with its electronic fuel injection engines, its impressive performance made it a must-buy for many railroads.

Packed with all of your favorite features, Lionel's Dash 9 is a must buy as well. From the crosshatched safety tread along the side walkways, to the emergency placards printed on the top and sides of its scale dimensioned body, the Dash 9 is sure to be one of your favorite locomotives. You will also be impressed with its smooth running, dual motor system, impressive fan driven smoke unit and opening cab doors. Bring the power of the Dash 9 to your layout today.

Features common to both Command Control and Traditional versions:

- Dual can motors with flywheel, Durable die-cast trucks, fuel tank, pilots and operating couplers, Sturdy metal frame and handrails, Traction tires, Detailed molded body, Fan driven smoke unit, Operating headlight, Interior illumination

Additional features on Command versions:

- Command controlled, RailSounds, TowerCom, CrewTalk, ElectroCouplers, Directional lighting

Additional features on Traditional versions:

- Command and RailSounds upgradeable, SignalSounds with bell and horn, Magnetic couplers
- Minimum Radius: 0-31 Scale: 0-Gauge
- Length: 17 1/2"

"Here's Realism! Here's exciting railroading as only Lionel can give it to you!"

1948

FT DIESEL LOCOMOTIVES

Built by General Motors' Electro-Motive Division, the FT diesel locomotive took its place next to its more famous cousin the F3, as one of the workhorses of the American rails. Lionel's version of the FT offers all the features you want, from two powerful motors, to highly detailed die-cast truck sides.

What's more, you will discover intricate rivet detail on the FT's die-cast pilots, separately applied grab irons, two operating headlights, vent and hatch details included throughout, and a removable hatch on the roof which allows easy access for upgrades. Sold as a set of A-A units with a separate sale B unit, these locomotives are produced from all-new tooling, and are offered in three popular road names. They're perfect for pulling the new matching streamliner passenger cars on pages 74-75, or any consist you choose.

A-A units sold as follows:

- Powered A
- Dummy A

Features common to both Command and Traditional A-A sets:

- Dual can motors with flywheels, Traction tires, Durable die-cast trucks, pilots and operating couplers, Sturdy metal frames and ladders, Detailed molded bodies, fuel tanks and grab irons, Operating headlights, Interior illumination

Additional features on Command versions:

- Command controlled, RailSounds, TowerCom, CrewTalk, ElectroCouplers, Directional lighting

Additional features on Traditional versions:

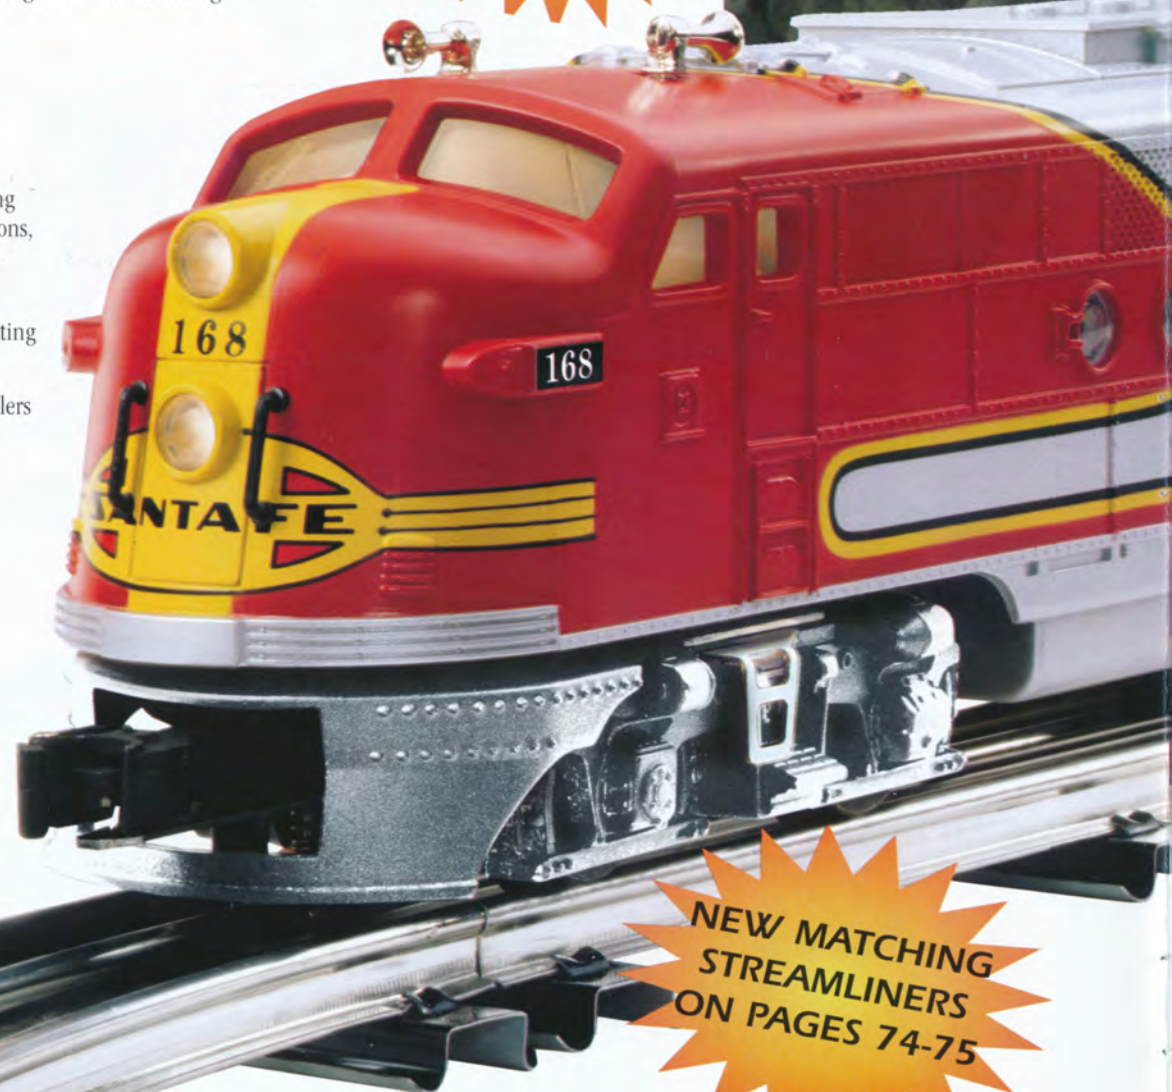

- Command and RailSounds upgradeable, SignalSounds with bell and horn, Magnetic couplers

B units are non-powered and sold separately

B-unit Features:

- Durable die-cast trucks and operating couplers, Sturdy metal frame and ladders, Detailed molded body
- Minimum Radius: 0-27 Scale: 0-Gauge
- A-A set length: 26" B-unit length: 13"

ALCO C-420 DIESEL LOCOMOTIVES

Lionel's new generation of diesel locomotives offer the highest level of detail imaginable. The all-new Alco C-420 is no exception. At first glance, you will be amazed at the keen attention to even the smallest detail. From separately applied grab irons, lift rings and windshield wipers, to opening cab doors, engineer figure, painted steps and warning placards, you are bound to find something new every time you look at it.

Of course, beneath all of the exterior enhancements is a great running locomotive crafted with die-cast components, powered by two motors and complete with a fan-driven smoke unit. With the option of five prototypical paint schemes in Command or Traditional versions, there is a C-420 for everyone. You will discover that it is next to impossible to find this level of quality and value at such an affordable price!

"'Imitation is the sincerest flattery'. After our Models are on the market a year or two the other fellows list their imitations as 'new goods.'"

1999

Features common for both Command and Traditional versions:

- Dual vertical can motors with flywheels, Durable die-cast trucks, couplers, fuel tank and pilots, Sturdy metal frame and handrails, Detailed molded body, Traction tires, Operating headlights, Fan driven smoke unit, Opening cab door, Engineer figure

Additional features on Command versions:

- Command controlled, RailSounds, TowerCom, CrewTalk, ElectroCouplers, Directional lighting

ALL NEW TOOLING!

SD-60 & SD-70 MAC DIESEL LOCOMOTIVES

Kings of the modern rails, the SD-60 and SD-70 MAC diesel locomotives from EMD are freight hauling brutes. Run by a number of different railroads, these powerful machines can be spotted from coast to coast.

Lionel's new offerings combine great detail with dependable, powerful motors to add fun and realism to your modern layout. From authentic SD-type sound recordings in Command Controlled versions, to prototypical decoration and markings, these scale sized locomotives have it all. Dual motors, impressive fan-driven smoke and die-cast components are just a few of the features that make these newly tooled diesels so impressive. They are a perfect addition to any layout!

Features common to both Command and Traditional versions:

- Dual vertical can motors with momentum flywheel, Die-cast trucks, operating couplers, fuel tank and pilot, Stamped metal chassis and handrails, Detailed molded body, Traction tires, Fan-driven smoke unit, Finished cab interior with figure.

Additional features on Command versions:

- Direction activated rear lighting, RailSounds with CrewTalk and TowerCom, ElectroCouplers

Additional features on Traditional versions:

- Command and RailSounds upgradeable, SignalSounds with bell and horn, Magnetic couplers
- Minimum Radius: 0-31
- Length: 18"

RS-11

Originally built for the New York Central Railroad on a verbal commitment in 1960, these RS-11's had to be shipped back to Alco when NYC management could not get the authority to pay for their purchase. In January of 1961, Alco found a buyer in the Delaware & Hudson Railroad.

Lionel is pleased to offer both versions in this newly tooled, dual motored locomotive.

Features common for both Command Control and Traditional Versions:

- Dual vertical can motors with flywheels, Die-cast trucks, truck sides, fuel tank and pilots, Detailed molded body, Stamped metal chassis, Traction tires, Illuminated interior and number boards, Fan-driven smoke unit, Metal ladders, Opening cab doors, Engineer figure

Additional features on Command versions:

- RailSounds with CrewTalk and TowerCom, ElectroCouplers, Directional lighting

LIONEL LOCOMOTIVE POWER

Lionel locomotives are known the world over for their reliability, authenticity and all-out fun. Take a look and discover all the great diesel locomotives on these pages and we are sure you will agree, when it comes to pure enjoyment, nothing beats a Lionel!

C&O F3 A-A Diesel Locomotive Set

From the rails of the venerable C&O Railroad comes this stunning F3 A-A set. Painted in the traditional blue, yellow and gray of the C&O, these F3's pack the best features money can buy. Dual Pullmor motors power these locomotives around your layout, augmented by TrainMaster Command Control and authentic Lionel RailSounds. Once you start them up, you will never want to turn them off!

Features:

- One powered, one non-powered F3 A-unit, Dual Pullmor motors, Command Controlled, RailSounds with CrewTalk and TowerCom, ElectroCouplers on nose of both A-units, Magne-Traction, Die-cast frame, truck sides, pilot and fuel tank, Metal ladders, Detailed molded bodies, Operating headlight, interior illumination and directional lighting, Engineer and Brakeman figures
- Minimum Radius: 0-31 Scale: O-Gauge
- Length: 26 1/2"

(6-38144) \$699.95

Lionel GP Diesel Locomotives

Two of the most famous and popular of all Lionel locomotives, the GP-7 and GP-9 are great running engines with a feast of features, and prices for every budget. A great entry locomotive, the freight scheme B&O GP-9 is a hardy option for small layouts, or for pulling your collection of B&O rolling stock. The ACL GP-7, in its regal purple, yellow and silver paint scheme, packs all of your favorite Lionel features in its Command Control option. Whether you are looking for a simple, inexpensive engine, or one with all the bells and whistles, Lionel has a GP unit for you!

B&O GP-9 Features:

- Powered by precision can motor, Detailed molded truck sides and magnetic operating couplers, Stamped metal frame, Detailed molded body and fuel tank, Operating headlight, Interior illumination, Diesel horn
- Minimum Radius: 0-31 Scale: O-Gauge
- Length: 14"

(6-28514) \$129.95

Erie Alco PB-1

A great addition to your Erie Alco PA-1, this PB-1 is stunning in its attention to detail. From its realistic vents to its prototypical decoration, this PB-1 has it all.

Features:

- RailSounds, ElectroCouplers, Die-cast truck sides, Stamped metal frame, Detailed molded body
- Minimum Radius: 0-31 Scale: 0-Gauge
- Length: 16 3/4"

(6-18249) \$334.95

ACL GP-7 Features Common for both Command Control and Traditional Versions:

- Powered by single Pullmor motor, Die-cast truck sides, pilot, fuel tank and operating couplers, Stamped metal frame, Detailed molded body, Magne-Traction, Operating headlight and strobe light, Interior illumination

Additional features included on the Command Version:

- Command controlled, RailSounds with CrewTalk and TowerCom, ElectroCouplers, Directional lighting

Additional features included on the Traditional Version:

- Command and RailSounds upgradeable, SignalSounds with bell and horn, Magnetic couplers
- Minimum Radius: 0-31 Scale: 0-Gauge
- Length: 14"

2000 SERVICE STATION SPECIAL SET

In honor of Lionel's Service Stations around the country, whose technical support helps keep America's favorite trains running in top shape, we are proud to offer this Service Station Special set. Pulled by an all-new Alco C-420 Command upgradeable diesel locomotive, this set features a 6464 boxcar, a new 8,000 gallon tank car, Standard-O gondola filled with common service parts, a flat car with a specially decorated trailer, and an extended vision caboose to round it out. This set has it all!

Features:

- Alco C-420 diesel locomotive powered by two can motors with momentum flywheels, Command and RailSounds upgradeable, SignalSounds, Die-cast trucks, magnetic couplers, fuel tank and pilots, Metal frame and handrails, Detailed molded body, Traction tires, Operating headlight, Fan driven smoke unit, Opening cab doors, Engineer figure
- All rolling stock features die-cast sprung trucks, Metal brake wheels, Detailed molded bodies
- Boxcar also features stamped metal frame and door guides
- Tank car also features separately applied metal handrails
- Gondola also features special service parts load (Loads may vary)
- Flatcar also features semi trailer with wheel chocks

- Extended vision caboose also features stamped metal frame, die-cast trucks and interior illumination
- Minimum Radius: 0-31 Scale: 0-Gauge
- Set Length: 67 1/2"

(6-21952) \$399.95

STEAM LOCOMOTIVES

Lionel steam locomotives are a fun way to get started in model railroading. Kids and adults alike are fascinated watching the metal rods drive the spoked wheels forward, seeing smoke pour out of the stack, and hearing the whistle bellow its warning. Lionel offers two entry level steam locomotives to choose from, including one made from all-new tooling. Pick one, or take them both. They are a great way to start a lifetime of enjoyment.

Santa Fe 4-4-2 Steam Locomotive Features:

- Die-cast locomotive powered by precision can motor, Traction Tire, Operating headlight, Operating smoke unit, Detailed molded tender with operating coupler on rear, Air whistle, Bold Santa Fe markings
- Minimum Radius: 0-27 Scale: 0-Gauge
- Length: 18 1/2"

(6-18682) \$99.95

"To suit your taste, your budget, and space requirements, Lionel has for you the latest and most exciting model trains."

1960

ALL NEW
DIE-CAST
LOCOMOTIVE!

New York Central 4-6-4 Steam Locomotive

This all-new, highly detailed steam locomotive is sure to be an instant favorite. Made from completely new tooling, this locomotive has all of your favorite features. Real-life puffing smoke, SignalSounds with bell and whistle, operating headlight, separately applied handrail details on the boiler, real spoked wheels you can see through and die-cast trailing trucks. All this and a great price, too! It's a great way to start your layout.

Features:

- All-new die-cast steam locomotive, precision can motor, Operating headlight, Operating smoke unit, Separately applied metal handrails, Spoked metal wheels, Detailed molded tender with die-cast trucks and operating coupler, SignalSounds with bell and whistle.
- Minimum Radius: 0-27 Scale: 0-Gauge
- Length: 19 1/2" (6-28027) \$179.95

Every Collection Requires A Lionel Congressional Set!

POSTWAR CELEBRATION SERIES CONGRESSIONAL SET

“Of all the trains in America... none is more graceful, none carries more important dignitaries than the world-famous ‘Congressional’ between New York and Washington, D.C. — and it’s pulled by the Pennsy’s own ‘GG-1’! No wonder Lionel has been deluged with requests to bring this model locomotive back!”

In 1955, nothing in the World of Lionel was finer than the top-of-the-line Congressional Set, featuring the newly resurrected GG-1 with striped aluminum passenger cars. To accurately recreate this Postwar masterpiece, we’ve dusted-off our Congressional decoration-guidance files from the 1950’s to capture the look, fit and feel of the original. Whether you missed the set in 1955, or are discovering it now for the first time, don’t be left at the station without seeing it at your local dealer.

GG-1 features:

- Dual Pullmor motors, 12 wheel drive, Command controlled, RailSounds with TowerCom and Crewtalk, Die-cast body, trucks and pilots, Magne-Traction, Operating directional headlights, ElectroCouplers, Metal ladders, Operating pantographs, Postwar Celebration Series builders plaque

Passenger Cars feature:

- Extruded aluminum bodies, Die-cast trucks, Metal frame, Operating couplers, Interior Illumination, Passenger silhouettes, Postwar Celebration Series builders plaques
- Minimum radius: 0-31
- Scale: 0-Gauge
- Length: 78"

(6-21782) \$1299.95

"A miracle of modeling accuracy... The 'Congressional' Pennsylvania's Twin Motor Electric 'GG1' Locomotive"

1955

Whether you're a Collector or Operator, Lionel's F3's are a proven Winner!

POSTWAR CELEBRATION SERIES SOUTHERN F3 "TRIPLE-UNIT DIESEL"

First shown in the 1954 catalog, the Southern was the fourth new roadname to appear on the F3. It was offered separately as an A-A pair, or as an A-B-A in set form. For our Celebration Series reissue, we've chosen to produce the Southern in its grand "triple unit" configuration, including all the F3 features you've come to expect.

To complement the F3's, we are also separately offering a set of matching aluminum passenger cars, featuring prototypically-accurate car names and decoration. Whether you collect our Postwar Celebration Series, or are simply looking for a sharp set from the Old South, this Southern outfit is for you!

A-A Features:

- Dual Pullmor motors in powered unit, Command controlled, RailSounds with TowerCom and CrewTalk, Durable die-cast frames, trucks and pilots, Detailed molded bodies, Magne-Traction, Operating headlights and interiors, Directional lighting, ElectroCouplers on noses, Fixed couplers at rear, Metal ladders, Finished cab interior with engineer and brakeman figures, Postwar Celebration Series builders plaques

B-unit Features:

- Die-cast trucks, Detailed molded body and frame, Fixed couplers, Metal ladders
 - Minimum radius: 0-31
 - Scale: O-Gauge
 - Length: 39 1/2"
- (6-38188) \$799.95

Passenger Car Set includes:

- Baggage
- 2 Coaches
- Observation

Features:

- Extruded aluminum bodies, Die-cast trucks, Metal frames, Operating couplers, Interior illumination, Passenger silhouettes
- Minimum radius: 0-31
- Scale: O-Gauge
- Length: 16" Baggage and Coaches 15 1/2" Observation

(6-39119) \$499.95

1953

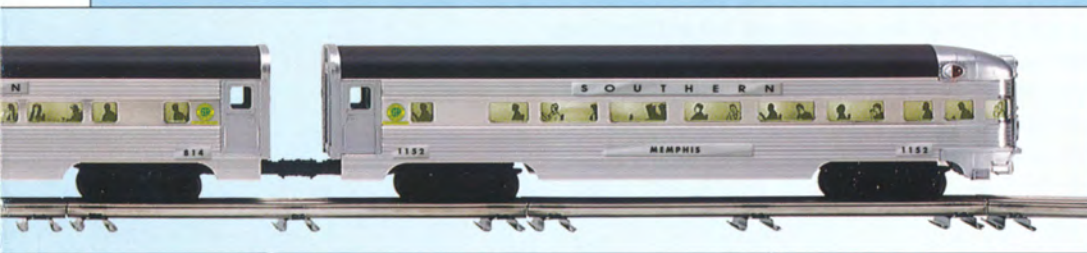

Postwar Celebration Series Canadian Pacific Passenger Car 2-Pack

Add these two classic cars, 2553 Blair Manor and 2554 Craig Manor, to your 6-21759 Canadian Pacific passenger outfit offered in 1999. You won't want to miss having a complete set!

Passenger Car features:

- Extruded aluminum bodies, Die-cast trucks, Metal frames, Operating couplers, Interior illumination, Passenger silhouettes, Postwar Celebration Series builders plaques
- Minimum radius: 0-31
- Scale: O-Gauge
- Length: 16" each

(6-39106) \$249.95

SD-70 MAERSK MAXI-STACK SET

Maersk, a multi-national corporation founded in 1904 and based in Copenhagen, is a world leader in shipping, oil and gas production, aviation and shipbuilding. With over 150 vessels worldwide, its shipping capabilities are extensive, and its tractor-trailers can be seen traversing the highways and byways of America each and every day.

The Santa Fe Railroad, whose unit trains hauled countless Maxi-Stack wells filled with Maersk containers, collaborated with Maersk to paint a diesel locomotive in Maersk colors for a one-day publicity photo shoot. The results were stunning! That event inspired Lionel's impressive Maersk set.

Featuring a new Command upgradeable SD-70 locomotive with Maersk deco, and two pair of Maxi-Stack cars, this is one of the most beautiful sets ever produced by Lionel. Packed with your favorite features, including fan-driven smoke unit, SignalSounds, dual motors and Lionel's famous end-of-train device light, this is sure to be a favorite. Don't miss out on this spectacular set!

Set includes:

- SD-70 diesel locomotive, two pair of Maxi-Stack well cars with eight removable Maersk containers

Features:

- Command and RailSounds upgradeable SD-70 diesel locomotive powered by dual vertical can motors, Die-cast trucks, pilots and fuel tank, Stamped metal frame and handrails, Detailed molded body, Traction tires, Fan-driven smoke unit, Detailed cab interior with engineer, SignalSounds with bell and diesel horn
- Maxi-Stack cars feature die-cast trucks and operating couplers, Metal brake wheels, Detailed molded bodies, Two removable molded containers per car, End car has flashing EOT light
- Minimum Radius: 0-31 Scale: 0-Gauge
- Set length: 72"

(6-21950) \$499.95

"Any way you look at it — Lionel leads them all"

1951

WORLD WAR II TROOP TRAIN

It was a time in which the world teetered on the brink of destruction. The men and women who served in World War II stared pure evil in the face and did not flinch. Beyond their own bravery and teamwork on the front lines were countless support efforts being carried out within the United States to get them what they needed. Trains played a vital role. Between Pearl Harbor and V-J Day, America's Railroads operated 113,891 special troop trains, moving 43,700,000 members of the armed services. This was an average of almost a million troops a month. In addition, millions of tanks, trucks, airplanes, fuel and other supplies that were needed to support such a massive effort were shipped as well.

Lionel pays honor to our Veterans, our Railroads and the spirit that the world witnessed during World War II with our own version of a WWII Troop Train. Led by an all-new, die-cast steam locomotive, this set captures the essence of WWII. Decorated in Army green, the set features a tank car filled with fuel, a flatcar with two die-cast Army jeeps, and two passenger cars, adorned with the names of America's landing sites in Normandy, Utah Beach and Omaha Beach. This set is sure to be a treasure to veterans, WWII history buffs and anyone who appreciates the sacrifice and hard work that went into this cataclysmic struggle.

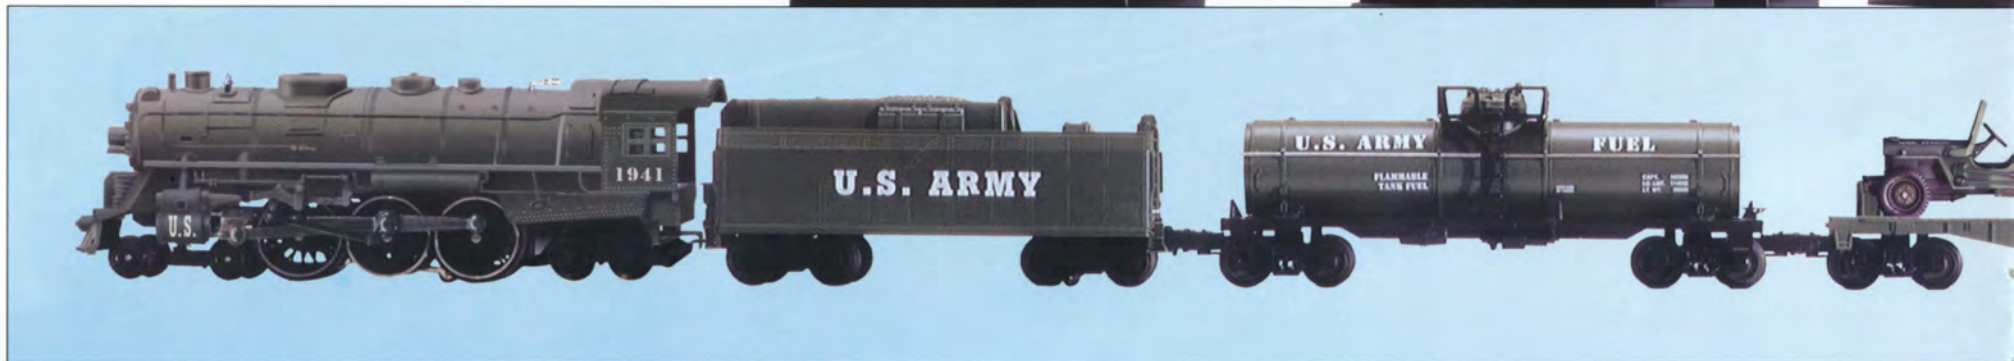

Set includes:

- All-new, 4-6-4 die-cast steam locomotive, tender, single dome tank car, flatcar with two die-cast jeeps, 2 Baby Madison passenger cars (1 Coach, 1 Observation)

Features:

- All-new die-cast steam locomotive with smoke and operating headlight
- Detailed molded tender with die-cast trucks, operating coupler and SignalSounds with bell and whistle
- Rolling stock features die-cast sprung trucks and operating couplers, Metal wheels, axles and brake wheels, Detailed molded bodies, Tank car has metal handrails, Passenger cars have die-cast trucks and interior illumination, Flat car carries two die-cast Army jeeps
- Minimum Radius: 0-27 Set Length: Approximately 66"

(6-21951) \$399.95

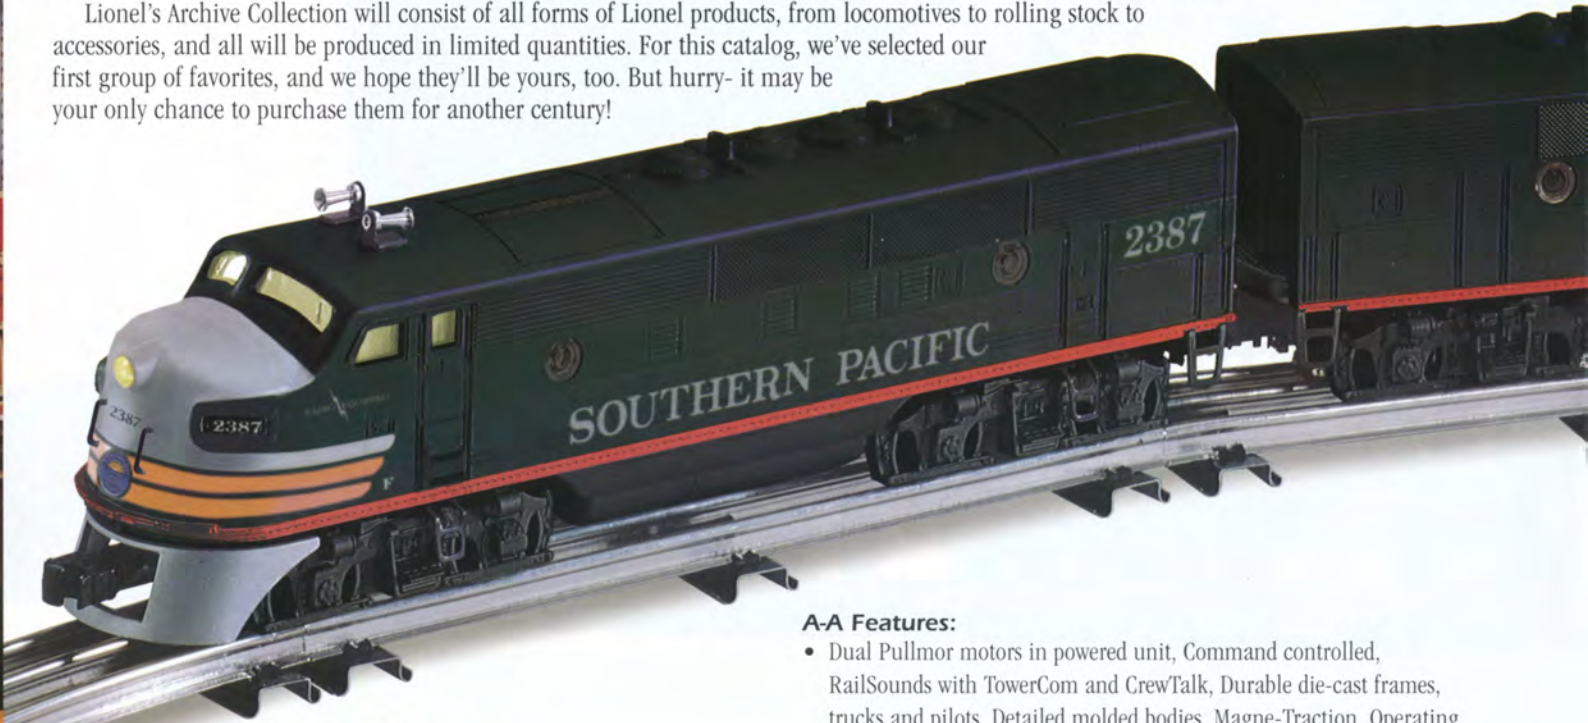

THE LIONEL ARCHIVE COLLECTION

Mention the name "Lionel Archives" to most any train enthusiast and you're likely to watch their eyes grow in wonder, for there are few places as hallow and mysterious.

Simply put, Lionel's archives are a snapshot of the company's history from the last several decades, holding priceless relics from times gone by. You'll find hand-made, one-of-a-kind factory samples from the 1930's through today, as well as production pieces of a vast percentage of everything Lionel has made during that time period. Many pieces represent ideas never fully realized, leaving us to wonder, "What if...?"

During a recent visit through this revered place, we thought that some of these ideas were too good to stay behind locked doors. Hence for 2000, we will be raising the curtain on many of these products to allow them their moment in the sun.

Lionel's Archive Collection will consist of all forms of Lionel products, from locomotives to rolling stock to accessories, and all will be produced in limited quantities. For this catalog, we've selected our first group of favorites, and we hope they'll be yours, too. But hurry- it may be your only chance to purchase them for another century!

Archive Collection Southern Pacific F3's

While it is not known why Lionel didn't produce these "Black widow" diesels in the 1950's, we've assigned the 2387 number to them as if they had gone into production. The Lionel Archive Collection will be filled with many interesting, popular, and even obscure pieces over the coming years - here's your chance to be in on it from the beginning!

A-A Features:

- Dual Pullmor motors in powered unit, Command controlled, RailSounds with TowerCom and CrewTalk, Durable die-cast frames, trucks and pilots, Detailed molded bodies, Magne-Traction, Operating headlights and interiors, Directional lighting, ElectroCouplers on noses, Fixed couplers at rear, Metal ladders, Finished cab interior with engineer and brakeman figures

B-unit Features:

- Die-cast trucks, Detailed molded body and frame, Fixed couplers, Metal ladders
- Minimum radius: 0-31
- Scale: O-Gauge
- Length: 39 1/2"

(6-38197) \$799.95

Archive Collection Southern Pacific Bay Window Caboose

The perfect complement for our new Southern Pacific F3's, this new bay window caboose will also be a suitable mate for all the other Lionel Southern Pacific locomotives.

Features:

- Die-cast trucks and operating couplers, Metal wheels and axles, Stamped metal frame and brakewheel, Detailed molded body, Underbody detail, Interior illumination
 - Minimum radius: 0-27
 - Scale: O-Gauge
 - Length: 10 1/2"
- (6-19785) \$79.95

ARCHIVE COLLECTION

463 NUCLEAR REACTOR

Perhaps inspired by the space race and continuing research into the use and merits of nuclear power, Lionel produced a prototype of a nuclear reactor some time in the late 1950's to early 1960's. Featured as a background illustration in the 1958 catalog, the Nuclear Reactor had a large dome with a control center in front. While the eventual prototype did not duplicate the artist's rendition, there are enough similarities to suggest that the catalog drawing provided its inspiration.

Inspection of the non-operating prototype led the Lionel product team to envision the initial intent of the Reactor. The magnetized side arm was certainly intended for removing metal objects from a waiting car. Once raised, the objects were loaded into a bin inside the dome where they awaited release down a chute on the front of the Reactor. Two lights on the interior added a final enhancement.

For the most part, the 463 is true to the original prototype in both aesthetics and functionality. However, a few enhancements have been made. Where the prototype has one bin to accept material, the 463 has two to allow "raw" steel material to enter the dome, and "spent" glow-in-the-dark nuclear isotopes to exit. Lighting has been upgraded as well, with a circular sequential light unit, and a super bright LED to give the appearance of nuclear reactions firing inside. The option of operating the arm with a controller or mechanical crank is true to the original.

From its mysterious origins to its current form, the 463 Nuclear Reactor is uniquely Lionel.

Features:

- All new tooling, Single can motor, Die-cast crane arm, Stamped metal base and upper dome, Detailed molded lower dome, Manual or remote operation, Interior sequential lighting, Interior strobing LED, 1 bag of steel pellets, 1 bag of glow-in-the-dark "isotope" material, Inner dome is plated for maximum reflection of light
- Approximate dimensions:
15" x 12" x 8 1/2"

(6-14065) \$269.95

"Be sure it's a Lionel — the trains Railroad Men buy for their boys."

1931

ARCHIVE COLLECTION LIONEL LINES MADISON CARS

Lionel had a dilemma in the late 1940's. They had just released their wildly-successful 2333 Santa Fe F3's, which cried-out for a matching set of passenger cars so that modelers could recreate their own version of the Super Chief. At the time, however, Lionel had yet to produce the streamlined cars that were the hallmark of the Super Chief, but the opportunity was too strong for Lionel to ignore! The solution was to take the normally-drab Madison-style passenger cars and paint them in bright red and silver to match the F3's. While certainly not prototypical, these cars represent a look into Lionel product planning in the late 1940's. The reasons why they were not produced remain unknown, but their missed opportunity then is your chance to obtain them now at your local dealer.

Set includes:

- 2625 Irvington Coach
- 2627 Madison Coach
- 2628 Manhattan Coach

Features:

- Die-cast vestibules, trucks, and operating couplers, Metal frames, Detailed molded bodies, Interior illumination, Passenger silhouettes, Opening Doors
 - Minimum radius: 0-31
 - Scale: 0-Gauge
 - Length: 43 7/8"
- (6-39028) \$224.95

ARCHIVE COLLECTION 68 BLUE INSPECTION CAR

Lionel's original Inspection Car debuted in 1958, decorated in red and cream. Planning to produce another version, Lionel experimented with this baby blue color, very similar to the hue used on the Girl's set caboose. When sales of the original red model did not meet expectations, the blue prototypes faded away into history - until now! You'll want to own this great companion piece to our recently-produced red model from 1999.

Features:

- Pullmor motor, Two-position reverse, Metal chassis, Detailed molded body, Operating headlight and taillights
- Minimum radius: 0-27
- Scale: 0-Gauge
- Length: 7 1/2"

(6-18454) \$129.95

Celebrate with Us!

SPECIAL CARS, SPECIAL TIMES

Only Lionel can bring you cars that commemorate, inspire, frighten or celebrate the special days in our lives. From birthday candles to ghosts, and bravery to Centennial celebrations, these cars help you make a statement.

Veterans Day Boxcar

Countless Americans have served this country at home and in places around the globe to ensure the very freedom that makes our nation a beacon of hope for the world. It is in the spirit of humble gratitude that Lionel honors all the men and women who have served this fine nation with the Veterans Day boxcar. Styled in a manner befitting their commitment and sacrifice, the Veterans Day boxcar is a perfect gift for the veteran in your life, or as a remembrance of those who paved the way. Join us in saying to all veterans, "Thanks."

Features:

- Die-cast sprung trucks and operating couplers, Stamped metal frame, brake wheel and door guides, Detailed molded body
- Minimum Radius: 0-27 Scale: 0-Gauge
- Style: 9700 Length: 10 1/4"

(6-26724) \$44.95

Bobbing Ghost Halloween Boxcar

What's that scary looking apparition coming down the tracks? It's the Bobbing Ghost Halloween Boxcar! You will howl with delight as the ghost mysteriously floats in and out of its boxcar as it rolls around your layout. Is it nice, or is it frightening? Do you dare get close enough to find out? Make sure the lights are on when you do!

Features:

- Sturdy metal wheels and axles, Detailed molded body, trucks, frame and couplers, Includes molded ghost figure that floats in and out of the top of the car
- Minimum Radius: 0-27 Scale: 0-Gauge
- Style: 9700 Length: 10 1/4"

(6-26719) \$49.95

"Say 'Lionel' to your dealer — Don't be satisfied with any other make."

Lionel Centennial Boxcar

If it were not for one man's vision and creativity, the world would never have realized the joys of owning and operating Lionel trains. Joshua Lionel Cowen, whose namesake celebrates its centennial year in 2000, will forever be remembered as a pioneer in O-Gauge railroading. In honor of his dream, we have commissioned the Lionel Centennial Boxcar. With its classic styling and rich decoration, it is sure to be treasured for many years to come. Help celebrate a true "Standard of the World" with the Lionel Centennial Boxcar.

Features:

- Die-cast sprung trucks and operating couplers, Stamped metal frame, brake wheel and door guides, Detailed molded body
- Minimum Radius: 0-27 Scale: O-Gauge
- Style: 9700 Length: 10 1/4"

(6-39202) \$44.95

Lionel Lighted Birthday Boxcar

Join the fun as Lionel celebrates its 100th birthday with this illuminated boxcar. Watch the candles glow on the delicious birthday cake, and feel the power of the famous Hudson steam locomotive with its lit headlight and marker lights.

Features:

- Die-cast trucks and operating couplers, Metal wheels, axles and brake wheel, Detailed molded body, frame and door guides, Interior illumination lights birthday candles and Hudson lights
- Minimum Radius: 0-27 Scale: O-Gauge
- Style: 9700 Length: 10 1/4"

(6-26736) \$59.95

FUN CARS

Take a trip to the circus. Visit the mysterious radioactive world of AEC. Or, strap on a welding shield and get to work. You can do all this and more with fun Lionel rolling stock. Take your pick, or take them all, there's something for everyone!

AEC Glow-In-The-Dark Tank Car

When there is liquid radioactive material to be hauled away, there is nothing safer than an official AEC tank car. Turn out the lights and watch the tank car glow an eerie green as it makes its way around your tracks. It's a perfect addition to your AEC Switcher and glow-in-the-dark boxcars.

Features:

- Die-cast sprung trucks and operating couplers, Sturdy metal wheels, axles, handrails, ladders and brake wheel, Detailed molded frame and body, Molded in special glow-in-the-dark material
- Minimum Radius: 0-27 Scale: 0-Gauge
- Model: 6035 Length: 10"

(6-26102) \$44.95

New York Federal Reserve Mint Car

The New York Federal Reserve mint car, the first in a series of new mint cars honoring America's Federal Reserve banks, will shimmer as it hauls gold around your layout. Painted in bright silver, and decorated with the official logo of New York's Federal Reserve Bank, this premier car makes a fantastic fiscal addition to any collection. Don't be left without your own reserve for the next rainy day!

Features:

- Die-cast sprung trucks and operating couplers, Metal frame, wheels, axles and brake wheel, Detailed molded body and gold load
- Minimum Radius: 0-27 Scale: 0-Gauge
- Style: 6445 Length: 10 1/4"

(6-19670) \$54.95

"You're the boss with Lionel Trains and Accessories. You control your own railroad right from where you sit!"

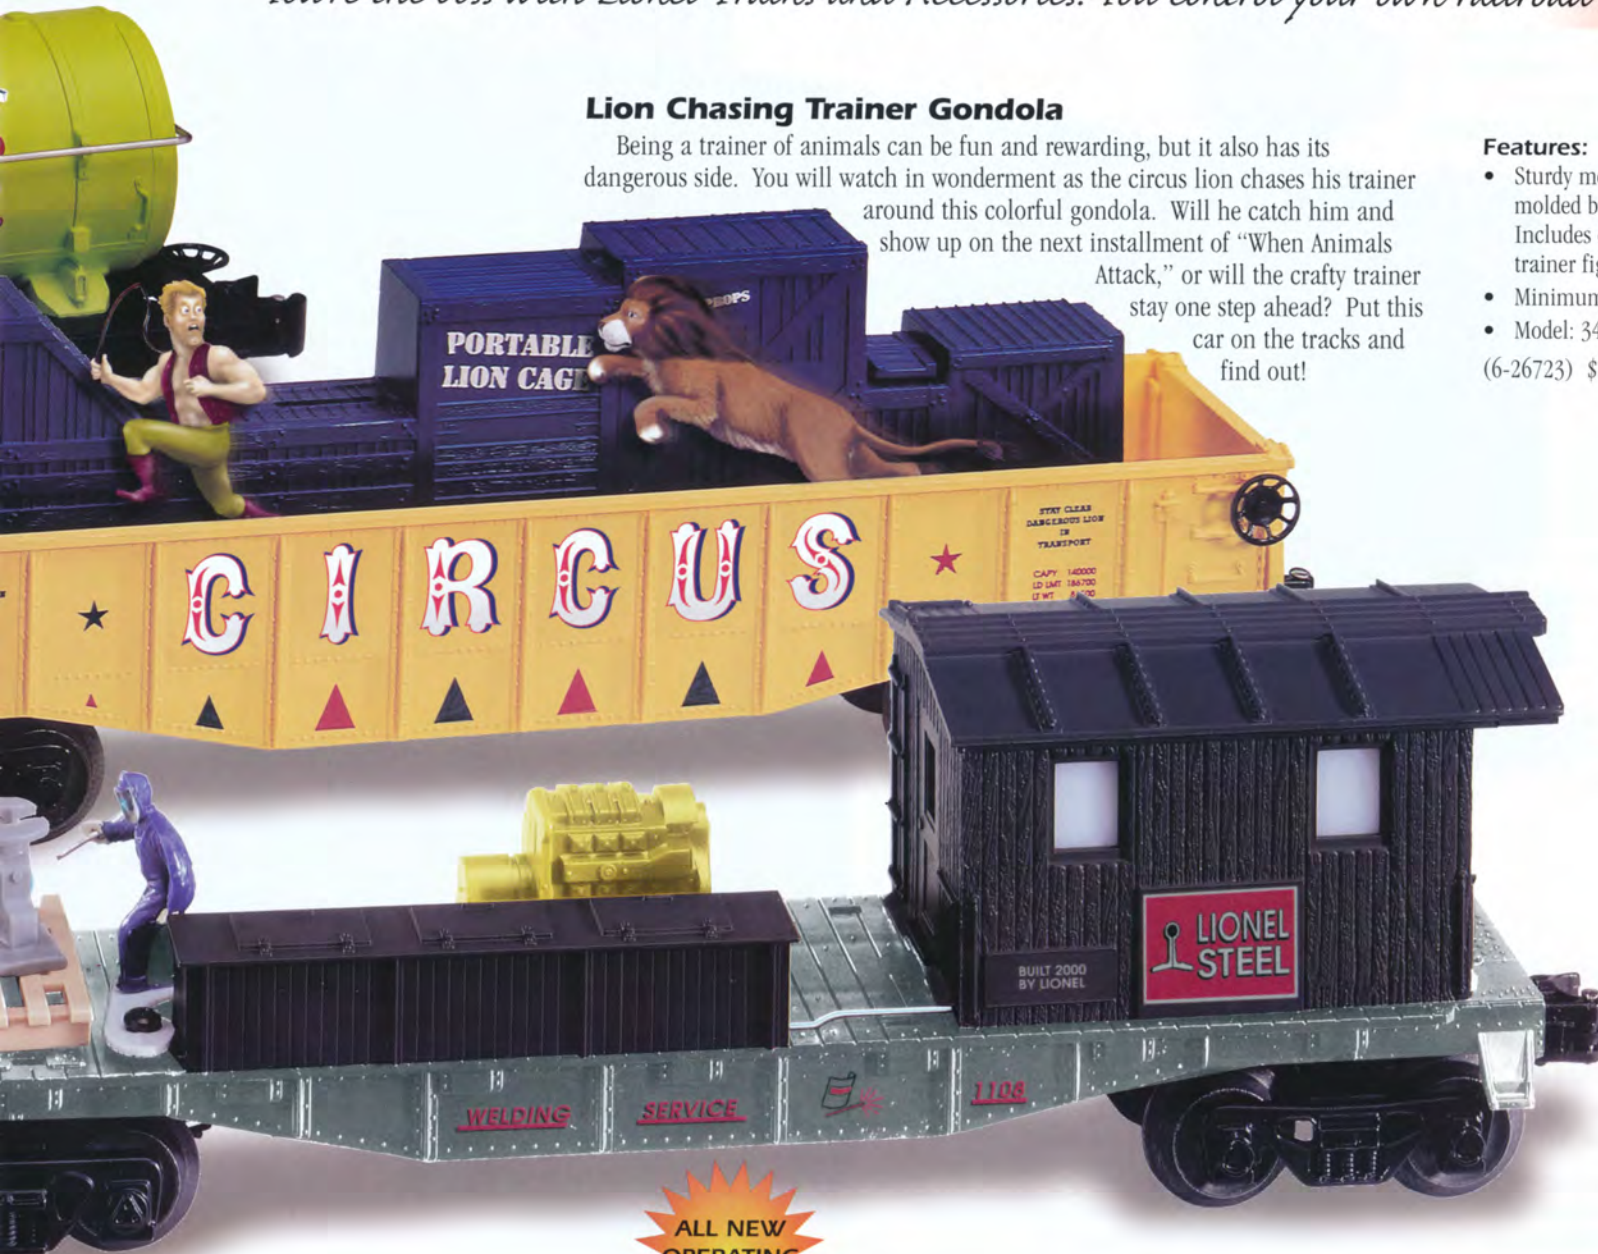

1958

Lion Chasing Trainer Gondola

Being a trainer of animals can be fun and rewarding, but it also has its dangerous side. You will watch in wonderment as the circus lion chases his trainer around this colorful gondola. Will he catch him and show up on the next installment of "When Animals Attack," or will the crafty trainer stay one step ahead? Put this car on the tracks and find out!

Features:

- Sturdy metal wheels and axles, Detailed molded body, trucks and operating couplers, Includes one lion figure and one circus trainer figure that chase each other
- Minimum Radius: 0-27 Scale: 0-Gauge
- Model: 3444 Length: 10 1/2" (6-26723) \$59.95

Lionel Steel Operating Welding Flatcar

You will get hours of enjoyment watching the Lionel Steel welder ply his trade. As the car rolls down the tracks, the busy worker moves towards the fifth-wheel trailer stanchion to begin his welding. Once there, he starts "welding," and a brilliant blue light shines from inside the stanchion, reflecting off the welder's silver mask. His motion is generated from the movement of the car, so there is no need for any remote controls to make the welder operate.

Features:

- Die-cast trucks and operating couplers, Metal wheels and axles, Detailed molded body and components, Blue LED simulates welding
- Minimum Radius: 0-27 Scale: 0-Gauge
- Length: 10 1/2" (6-26707) \$79.95

ALL NEW
OPERATING
CAR

LIGHTS & LIONS

For interactive fun and cars with all the features, you can't do better than Lionel. Whether you are looking up into the night sky for your favorite constellation, or hanging out in your favorite city by the bay, Lionel will light up your layout. Want to feel like you are on safari? The Lionel Lion RailSounds stock car will take you there. For all the lights and sound you want, Lionel has what you need.

Lion RailSounds Stock Car

You will think you're on safari with this new Lion RailSounds stock car. The majestic lion raises and lowers his head to get a good look at the scenery around him, growling and roaring all the while. For hours of fun and enjoyment, the Lion RailSounds stock car is hard to beat!

Features:

- Command controlled with CarSounds, Die-cast trucks and ElectroCouplers, Sturdy metal wheels, axles, frame and brake wheel, Detailed molded body and Lion head, Mechanical trip included
- Minimum Radius: 0-27 Scale: 0-Gauge
- Style: 3376C Length: 11 1/8"

(6-19850) \$249.95

Orion Constellation Boxcar

The second in our series of lighted constellation cars features Orion the Hunter, one of the most famous and recognizable constellations in the night sky. Appearing in late autumn in the Northern Hemisphere, Orion was once thought to be a harbinger of the winter storms soon to follow. Let this impressive Hi-cube light up your layout today.

Features:

- Die-cast trucks and operating couplers, Sturdy metal wheels, axles and brake wheel, Detailed molded body and frame, Stars are lit from inside
- Minimum Radius: 0-27 Scale: 0-Gauge
- Style: 9600 Length: 11 1/8"

(6-26717) \$59.95

"Lionel—for fascinating rail-side action!"

Interactive Fun for Kids of All Ages!

364 CONVEYOR LUMBER LOADER

First built in 1948, the 364 Conveyor Lumber Loader is a simple, but fun accessory. For use in conjunction with the Lionel log dump car, the Loader accepts logs at its base. A conveyor belt takes the logs to the top of the Loader. Once there, gravity sends them careening over the edge into a waiting car. An exterior light near the base augments this fun accessory. The 364 Conveyor Lumber Loader is great way to start your own logging empire!

Features:

- Precision can motor, Stamped metal construction, Operating conveyor belt system, Exterior illumination with red and green jewels, 12 wooden logs
- Dimensions: 28" x 3 1/8" x 4 1/4"

(6-14001) \$99.95

Cars available separately

Car sold separately

362 BARREL LOADER

You won't believe your eyes as you watch the 362 Barrel Loader operate. In seeming defiance to gravity, barrels loaded in the lower portion of the ramp start moving up to the top in a procession of law-breaking physics. In actuality, through the use of a Vibrotor motor, vibrations in the ramp force the barrels to the top where they once again obey gravity and fall into a waiting barrel car or gondola. Overseeing the whole operation is a diligent workman who makes sure the barrels keep moving.

Features:

- Vibrotor motor, Stamped metal ramp channel and track spacers, Detailed molded frame, sides, base and workman, 6 wood varnished barrels
- Dimensions: 19" x 4 1/8" x 4"

(6-32996) \$149.95

"For raiiside excitement all along the line... Lionel's action packed accessories!"

6264 FLATCAR

To get the most fun out of your 264 Operating Forklift Platform, you will want to add the 6264 flatcar, specially fitted for loading timbers. The timbers rest on three molded platforms, while metal stakes along the side of the car hold them in place. Combine these two great pieces together and enjoy the interactive fun.

Features:

- Die-cast sprung trucks and operating couplers, Stamped metal stakes and brake wheel, Detailed molded body and timber platforms, 12 piece timber load
 - Minimum Radius: 0-27 Scale: 0-Gauge
 - Model: 6264 Length: 10 3/4"
- (6-19484) \$39.95

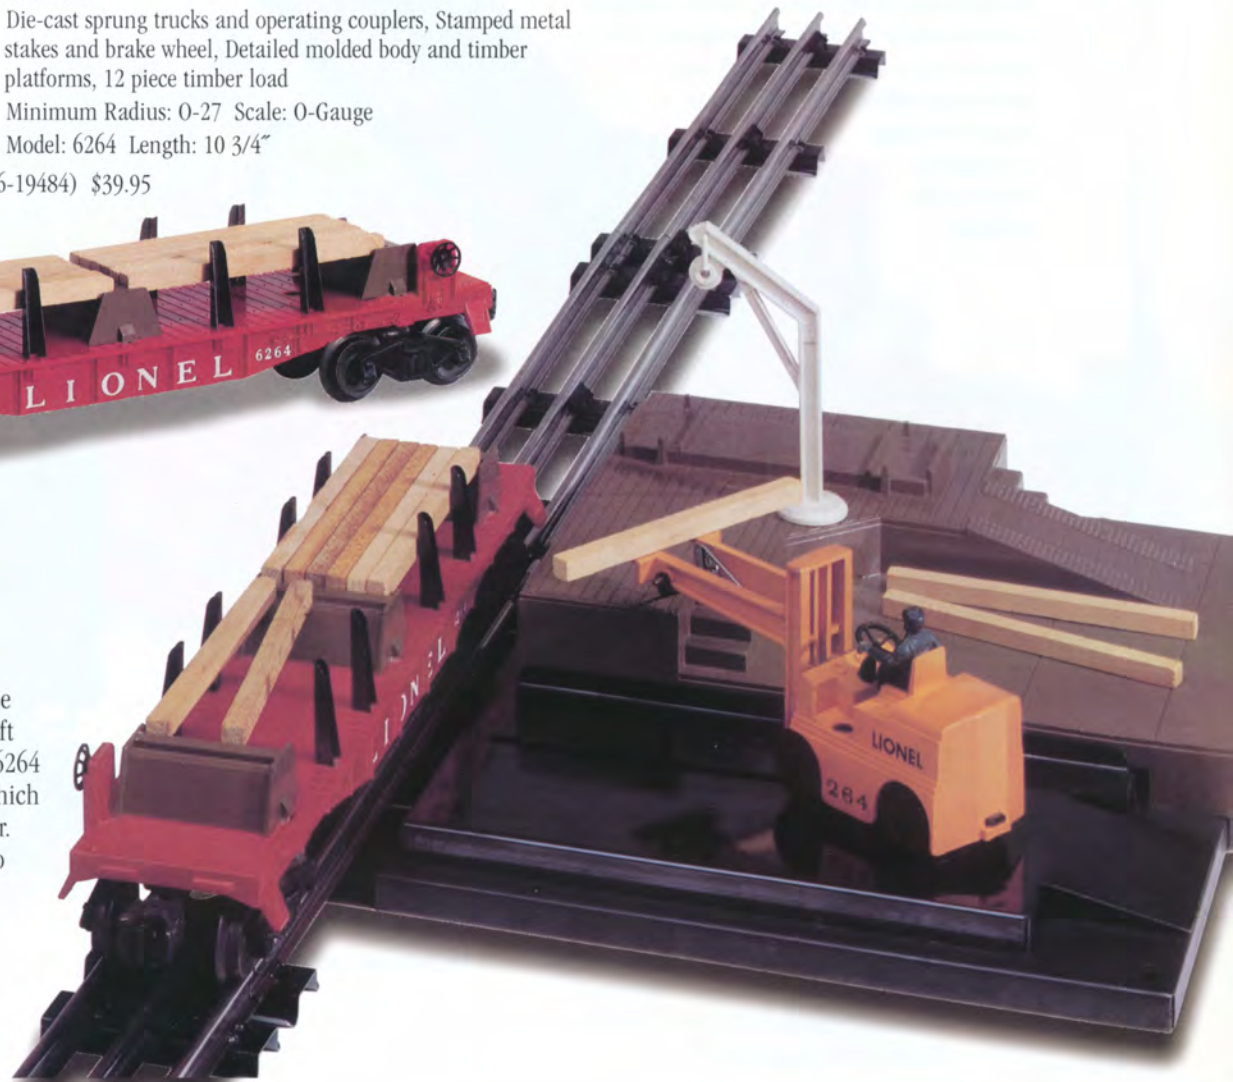

264 OPERATING FORKLIFT PLATFORM

Have hours of fun loading your flatcars full of wood timber with the 264 Operating Forklift Platform. The tireless operator drives his forklift back and forth to load you up and move you on your way. Using the 6264 flatcar (sold separately), you will enjoy watching the precision with which the operator picks up the timbers and transfers them to the waiting car. Made with the original tooling from 1957, this reissued piece is sure to kindle fond memories, as well as create new ones.

Features:

- Now with precision can motor, Stamped metal base, Detailed molded platform, forklift and forklift operator, 17 wooden timbers, Made from original Postwar tooling
- Dimensions: 10" x 10 5/8" x 5 1/2"

(6-14000) \$249.95

397 OPERATING COAL LOADER

Flip a switch and watch the coal fly! With the 397 Operating Coal Loader, you can fill hopper after hopper with Lionel coal. Simply load coal into the 397 by either dumping it in from a coal dump car, emptying a bag of coal into the receiving tray, or in conjunction with the 456R Operating Coal Ramp (shown together on this page), dump the coal from an elevated 3456 Operating Hopper (sold separately). The vibration of the running motor causes the coal to move to the back of the loader where a conveyor waits to send it up and over into the car below. You won't grow tired of watching and playing with this fun accessory.

Features:

- Precision can motor, Die-cast base, Stamped metal conveyor support and frame, Detailed molded tray and engine cover, Rubber conveyor belt, Illuminated #70 Yard Light, Bag of Lionel coal, Controller included
 - Dimensions: 10 1/6" x 7 7/16" x 6"
- (6-14004) \$179.95

3456 OPERATING HOPPER

Perfect for using with the 456R Operating Coal Ramp, this hopper has opening doors on the bottom of its two bays to allow coal to fall through into a plastic bin below. It also makes a great car for any consist!

Features:

- Die-cast sprung trucks and operating couplers, Metal brake wheel, Detailed molded body and opening bay doors, Bag of coal
- Minimum Radius: 0-27 Scale: 0-Gauge
- Model: 3456 Length: 8 1/2"

(6-19885) \$39.95

"Lionel means realism! Action! Excitement! Thrills! Something happening every second!"

1939

456R OPERATING COAL RAMP

Described as "unusual" and "fascinating" in Lionel's own 1950 catalog, the 456R Operating Coal Ramp is sure to spark conversations around your layout. Designed to work with a 3456 Operating Hopper (sold separately), the 456R is as fun to operate as it is unique. After backing the 3456 Hopper up the ramp and coupling it to an ElectroCoupler in the 456R's end tower, engage the unit's electromagnet and watch as the coal falls through the bottom of the open hopper bay doors into the bin below. Shipped with metal support posts, the 456R bin can be attached to the 397 Operating Coal Loader and dumped from above. Both accessories together make a wonderful operating unit.

For those who have original versions of the 3456 Operating Hopper, our new 456R Coal Ramp will accommodate these cars, plus modern versions as well, and the 456R will accommodate both O and O-27 track.

Features:

- Die-cast bottom ramp frame, Extruded aluminum ramp, Stamped metal base and handrail stanchions, Nickel plated brass handrails, Nickel plated steel posts for using dumping bin with 397 Operating Coal Loader, Detailed molded support towers and bin, ElectroCoupler, 2 electromagnets, Exterior light illuminates when hopper is coupled, Bag of coal, Works with all versions of 3456 Operating Hopper, Accepts both O and O-27 track, 456C Controller included
- Dimensions: 10" x 7 1/2" x 6"

(6-14005) \$199.95

HOBO CAMPFIRE

They're as much a tradition in railroad history as steam engines and crossing signals. Sitting by a fire under the starry night in a clearing next to the old train tracks, playing songs on a banjo or harmonica with trusty friends, the gentle hobo has a distinct place in railroad lore. With bandanas tied to sticks, cans of soup lying at their feet and worn but dependable overcoats on their backs, the imagery of the American hobo is rich indeed.

The Lionel Hobo Campfire captures their spirit in intricate detail with richly decorated figures, surroundings and a campfire that actually flickers a red-yellow glow. You'll be amazed at the life-like dishes, cans and soup kettle, as well as the hobo's personal effects. With its convenient size, the Hobo Campfire will fit even the smallest of layouts. Add some railroad history to your collection today!

Features:

- Solid cast pewter figures, trash can, stick and pot, Detailed molded base, Two bright flickering LEDs illuminate fire, Trash can doubles as on/off switch, Base can be mounted from above or below your layout, Perforated tabs allow easy detachment if unneeded.
- Dimensions: 5.5" diameter
(6-32987) \$39.95

#192R RAILROAD CONTROL TOWER

Whether your railroad yard is huge or small, you are going to need someone to monitor and control things when you're not there. The operators in the #192R Railroad Control Tower are up to the task. One look at them busily moving about the observation booth, and you'll soon realize that they don't miss a thing - and they almost never get tired! With these guys on the job, your yard is sure to run trouble free.

Features:

- Detailed molded base, tower, observation booth, anemometer and figures, Interior illumination, Newly fitted with reliable can motor for consistent operation.
- Height: 11"

(6-32988) \$49.95

#455R LINEX OIL DERRICK

You don't have to go all the way to Texas to find a major oil deposit. There's one right beneath you lay-out, and the only way to get to your "black gold" is to pump it out with the Linex Oil Derrick. You'll be amazed at how much oil there is as you watch the derrick arm pump away and the looking glass tube bubble profusely. Most of your oil will eventually end up as gasoline that you can store in your Linex gas tanks, and will be delivered in your fleet of Linex tanker trucks. You've struck it rich!

Features:

- New die-cast generator, Die-cast hook and block assembly, Stamped metal tower, base, sign and elevated platform, Glass bubbling tube, Detailed molded pumping arm, Five die-cast oil barrels
- Dimensions: 8" x 5" x 14"

(6-32990) \$69.95

"Fascinating Lionel Remote Control Accessories for action and realism! They add new thrills to model railroading!"

1948

#464R SAWMILL

"Look, Daddy! It's making boards!" This exclamation is made by children each and every day in the Lionel Visitors Center as they watch this fantastic accessory in operation. No doubt, it's an all-time favorite. As the wood logs are carried into the sawmill by conveyor, the roaring of the Vibrotor motor makes it easy to imagine large blades shearing through the tough, but pliable wood. Out the other side comes lumber ready for shipping to build America's homes. The safety strobe lights on both sides warn workers to be careful as the wood is sent to be cut. Few accessories will ever match the interactivity, fun and illusion of the #464R Sawmill.

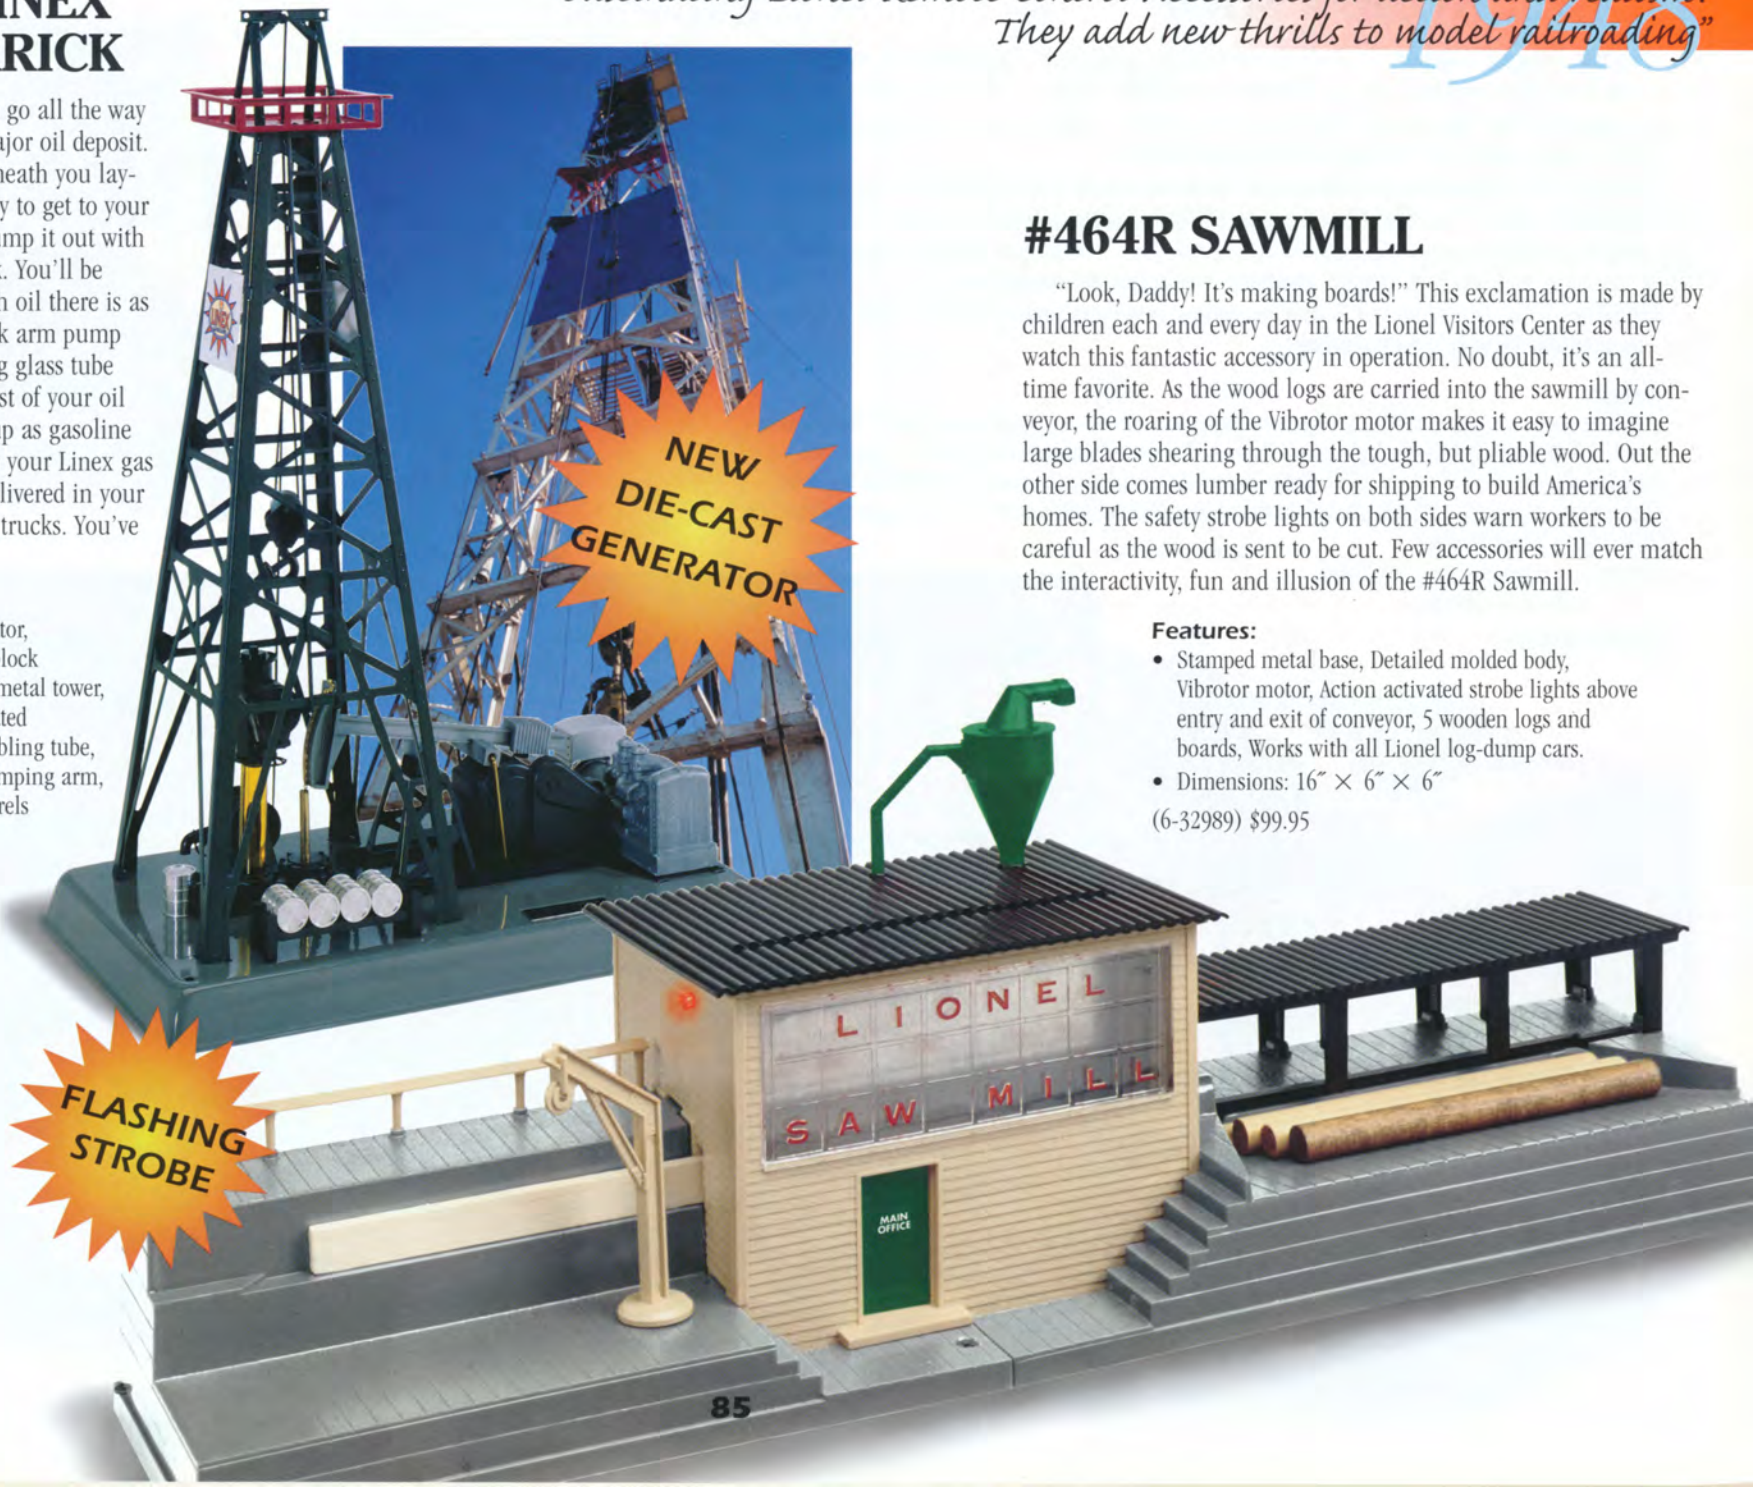

Features:

- Stamped metal base, Detailed molded body, Vibrotor motor, Action activated strobe lights above entry and exit of conveyor, 5 wooden logs and boards, Works with all Lionel log-dump cars.
- Dimensions: 16" x 6" x 6"

(6-32989) \$99.95

NEW DIE-CAST GENERATOR

LIONEL HOBBY SHOP

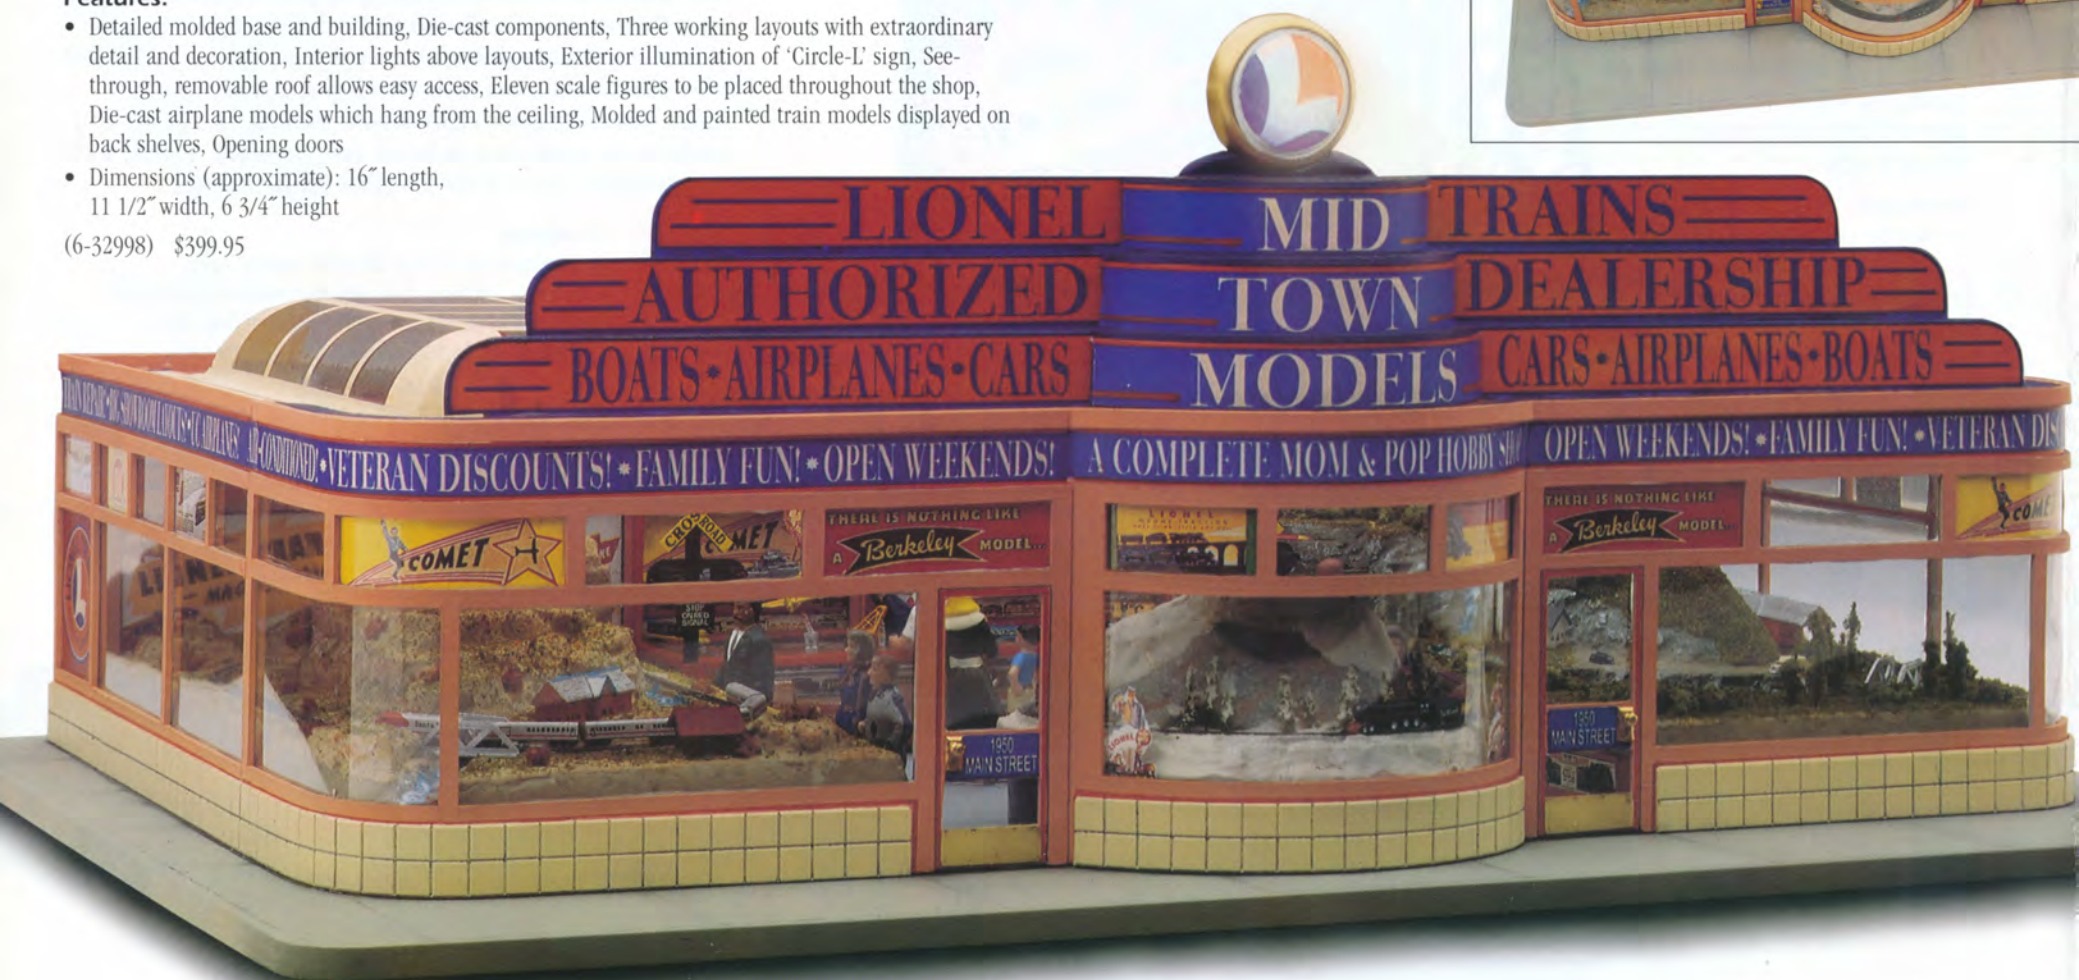

Own the ultimate accessory in this all-new Lionel Hobby Shop. Built with surprises in every corner of the store, your eyes will take you from three working layouts, to working crossing signals, to train sets on the wall and in display cases, to model airplanes hanging from the ceiling. Brilliantly illuminated inside, you will see every detail as if you yourself were walking into the store on a crisp, winter day looking for Christmas presents.

Adding to the authenticity are realistically decorated trains from your favorite railroads and Lionel catalog artwork scattered throughout the store. The Blue Comet, Santa Fe Warbonnet passenger set (with vista domes!) and New York Central freight set are running on the layouts and in the back display cases. Looking in through the see-through roof, you won't miss a thing. Open the doors and watch the people shopping and gazing in wonderment at the fun trains running in front of them. With the Lionel Hobby Shop, you're bound to find something new every time you look inside. Be sure to rush to your dealer today to add your own Hobby Shop to your collection!

Features:

- Detailed molded base and building, Die-cast components, Three working layouts with extraordinary detail and decoration, Interior lights above layouts, Exterior illumination of 'Circle-L' sign, See-through, removable roof allows easy access, Eleven scale figures to be placed throughout the shop, Die-cast airplane models which hang from the ceiling, Molded and painted train models displayed on back shelves, Opening doors
- Dimensions (approximate): 16" length, 11 1/2" width, 6 3/4" height

ALUMINUM RICO STATION

One of Lionel's favorite passenger stations has been transformed into an aluminum masterpiece. Taking inspiration from both the real station and Lionel's plastic model, the Aluminum Rico Station will make a bold statement on your layout. With embossed shingle and siding details, and decorative enhancements made from pewter, this station is a real head turner. Lit from within, the station will look as good with the lights out as it does with them on. Add this new passenger station to your layout today!

Features:

- Stamped aluminum construction, Decorative pewter enhancements, Embossed roof and siding details, Frosted window panes, Interior illumination, Opening door, High gloss finish
- Dimensions: 22 1/2" x 7 1/2" x 9 1/2"

TRAINmaster

C · O · M · M · A · N · D

The Benefits of Lionel TRAINMASTER COMMAND CONTROL (TCC)

More Features...More Sounds...More fun!

The Benefits of Lionel TrainMaster Command Control (TCC): Traditional model railroad control systems used the power from the transformer to give directions to the train. The Lionel TCC system directs the trains using separate digital signals. The advantages are:

More Sounds:

The Lionel RailSounds system offers a wider array of sounds when used in conjunction with Lionel TCC.

More features and functions:

A much broader assortment of operating functions and features are available. Locomotives can be operated independently, even on the same track, or in unison as a single lashup.

More Realism:

You can even adjust signal reaction time in order to simulate the momentum of real life train operation.

Improved lighting & performance:

Lionel TCC uses constant track power, so lighting remains constant and older Lionel locomotives run more smoothly at slower speeds.

Ease of use:

The commands are simple and can be executed

quickly. There is no complicated 'clinking and clanking' required as in alternative control systems.

Ease of installation:

One TCC Command Base will service an entire layout, no matter how many power blocks you have.

Low cost:

Lionel TCC provides digital control at a fraction of the cost of alternative designs.

Reliability:

Lionel TCC broadcasts the digital signal to an electronic receiver. Alternative digital systems pass the signal through the roller-pickup, which is subject to dirt and poor contact.

Freedom of movement:

Lionel TCC is the only 0 gauge control system that offers a walk-around remote control that transmits signals to a single Command Base. See your layout from new angles. Take your controls with you when you have to fix a problem on the far side of the layout - avoid having to walk back and forth. And watch how much more time your kids and grandkids will want to spend in the train-room with you.

Lionel RailSounds

The experts agree – the Lionel RailSounds system is the best in the industry.

And while you don't need the Lionel TCC operating system to enjoy the bold, robust sounds of Lionel RailSounds, when used in conjunction with Lionel TCC, the RailSounds system offers a greater number of fantastic sounds. That alone is reason enough to install Lionel TCC on your layout today.

Questions?

Call 810.949.4100 and talk directly to one of our TCC technicians!

TCC Cab-1

The walk-around wireless remote controller provides everything you need at your fingertips. Use more than one at a time to let everyone join the fun.

(6-12868) \$64.95

TCC Command Base

Receives digital signals from the Cab-1 controller.

Only one required for each layout – no matter how big or how many power blocks are involved.

(6-12911) \$64.95

NEW!

TCC SC-2 Switch Controller

Allows remote radio control of AC loads up to 15 amps! Powered either by the track or a wall pack, the SC-2 is input fused for maximum durability. It has program storage for control of the six programmable outputs capable of managing a combination of switches and accessories (up to six switches, or up to twelve accessories.) You can even turn power loops and sidings on and off remotely!

(6-22980) \$79.95

TCC 135 PowerMaster

Allows operation of conventional locomotives not equipped with TCC. Designed for use with the 135-watt PowerHouse transformer. Even if you operate only TCC equipped locomotives, the PowerMaster provides the convenience of a remote controlled circuit breaker and power switch.

(6-12867) \$64.95

Power Adapter Cable

Connects your transformer to the PowerMaster for operating TCC and Non-TCC equipped locomotives.

(6-12893) \$7.95

TCC Direct Lock-On

Connect the PowerHouse transformer directly to the track. Eliminates the need for a PowerMaster if you use only TCC-equipped locomotives. Provides over-current protection with automatic reset.

(6-22914) \$29.95

TRAINmaster

C·O·M·M·A·N·D

To enjoy the benefits of Lionel TrainMaster Command Control in a number of different layout environments, please follow the sample systems below to determine everything you need to get started. Remember, no matter which system fits your needs, you always need to have a Command Base to run Command Control.

System #1: Full TrainMaster Command System Components

- 1 PH-1 (6-12866) PowerHouse
- 1 PM-1 (6-12867) PowerMaster
- 1 Command Base (6-12911)
- 1 Cab-1 Controller (6-12868)

System #2: Basic Command System Components

- 1 Command Base (6-12911)
- 1 Cab-1 Controller (6-12868)
- 1 Traditional Transformer (ZW or equivalent)

System #3: Mixed TrainMaster Command System Components

- 1 Command Base (6-12911)
- 1 Cab-1 Controller (6-12868)
- 1 Traditional Transformer (ZW or equivalent)
- 1 PM-1 (6-12867) PowerMaster
- 1 Power Adapter Cable (6-12893)

TrainMaster Command Set

Everything you need to start running your TrainMaster locomotives can be found in this convenient package. The TrainMaster Cab-1 (6-12868) allows you to walk around your layout while controlling all of your Command Controlled locomotives and accessories. Also included is the TrainMaster Command Base which receives signals from the Cab-1 and communicates with your Command Controlled items. Only one Command Base is required per layout, regardless of how many power blocks you are controlling. It is the perfect way to start enjoying the benefits of Lionel's revolutionary TrainMaster control system.

(6-12969) \$99.95

Lionel TCC can be used in conjunction with any transformer capable of 18 volts continuous AC output!

LIONEL POWER AND CONTROL

There's Only One ZW!

There's only one ZW! No single product has come to symbolize the legend of Lionel more than the Lionel ZW. Molded to original dimensions in classic phenolic resin, the ZW can run up to four trains at the same time on different layouts, plus accessories. The two Engineer-type handles provide independent control of two variable voltage circuits, each with built-in whistle, direction, and bell/horn controls. Two additional accessory voltage circuits can be set by means of dial type controls to any desired voltage. Or if you prefer, you can control all four outputs with a single handle!

Produced to current UL® standards, this ZW controller can be powered by any combination of one to four 135-watt or 190-watt Lionel PowerHouse transformers. And if you use the Lionel Command Control system, you can adjust each output using your walk-around remote control up to the level pre-set by its corresponding ZW handle. (It's a great way to help less-experienced railroaders keep your trains under control while enjoying the thrill of independent remote-controlled operation.)

Offered here with two 190-watt PowerHouse transformers, this ZW package provides the power and control you dream of for your vintage or state-of-the-art Lionel locomotives and accessories.

80-watt Transformer/Controller

Enjoy operating your favorite locomotives and sets with Lionel's new 80-watt transformer/controller. Included is a handsomely designed controller, reminiscent of Lionel's famous ZW. Control speed and power by raising and lowering the engineer handle, and operate your favorite features with the bell, whistle and direction buttons. On the rear of the unit, you will find a 0-18 Volt variable AC output, as well as a 12V fixed AC accessory output. Easily attach the controller to the PowerHouse 80™ which generates a brawny 80-watts (5 amps) of alternating current. Perfect for train sets and small to medium layouts, the 80-watt Transformer/Controller provides the power you need to enjoy all your Lionel favorites.

(6-14003) \$99.95

Big Red Control Button

- Use with your Cab-1 to duplicate all major Cab-1 Button Commands!
- Great for kids of all ages, the physically challenged and many push-button display applications

(6-12890) \$89.95

LIONEL TRACK – EXPAND YOUR WORLD!

All Lionel track is easy to use, extremely durable and very reliable. You'll never have to worry about loose connections or sections separating. And Lionel track is so modestly priced, everyone can afford to create the layout they've always imagined. We offer two styles of track:

0-27 Gauge Track:

This track, which is standard in all Lionel ready-to-run starter sets, comes in 27" diameter curves, so you can do more in a tighter space.

O Gauge Track:

Compared to 0-27 track, the rails are a little taller. It doesn't come in 27" diameter curves, but it does come in a variety of larger curves for the biggest layouts.

Note: Larger locomotives and cars will not accommodate tighter curves. Check the "minimum radius required" in each item's catalog listing.

Looking for Ideas?

Since Lionel offers such a wide variety of track shapes and sizes, there is almost no limit to the layout you can design and build. If you'd like some suggestions, however, you can pick up a Lionel Track Pack – it includes all the track you need to make our most popular layouts.

Other Considerations:

You want a track system that comes in a lot of shapes and sizes. You also want one that's reasonably priced, so you can afford to keep adding on. Some additional things to consider:

High Conductivity Rails:

Lionel track is designed for maximum conductivity. That makes it easy to set up, minimizes problems, and maximizes the effectiveness of Lionel Magne-Traction – our exclusive traction and adherence system. Tracks that are not Lionel may be made of materials that are significantly less conductive. Your Lionel products will roll fine, but you may not get all the benefits we've built in.

Rail Shape:

Your train wheels take a lot of wear and tear rolling over metal rails. Lionel track rails are shaped to minimize this wear. Other track systems may cause your wheels to wear out faster.

Variety, Reliability & Value you can grow with!

Figure 8 Add-On Track Pack (0-27 Gauge)

Add this track to your oval to create a figure 8 layout. Requires an existing starter set oval of track.

1 - 90 degree crossover

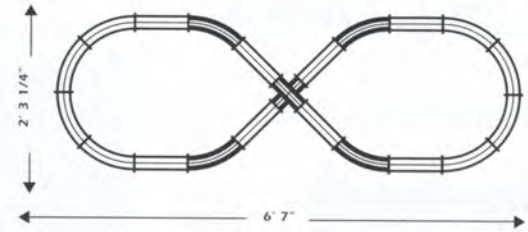

4 - curved tracks

(6-22966) \$12.95

90° Crossover

4 Curved Sections

0-27 Gauge remote-control switches include one 1122-200 controller. 0-42" diameter remote-control switch includes one 031-200 controller. 0-72" diameter remote-control switch includes one 022-200 controller.

#022 0 Gauge 31" Remote Switch

0 Gauge 72" Remote Switch

MAINTENANCE & UPGRADE KITS

Lock-On

- Classical Lionel Lock-On allows you to easily, quickly connect your power supply to your Lionel Track

(6-62900) \$2.45

Lock-On With Wires

(6-62905) \$4.95

Ives™ O-27 Gauge Track Clips

- Keep your 0-27-gauge track sections together with these easy to use slide on clips
- Perfect for keeping temporary or floor layouts together

(6-62901) \$7.95

O Gauge Track Clips

- Keep your 0-gauge track sections together with these easy to use slide on clips
- Perfect for keeping temporary or floor layouts together

(6-12743) \$7.95

ElectroCoupler Kits

Now you can add Lionel ElectroCouplers to your Command-equipped engines that didn't come with them. All releases of the LCRU will operate ElectroCouplers. Some soldering is required.

\$29.95 each

(6-22919) For GPs prior to 1999

(6-22955) For J Class Tender & B&A Tender

(6-22957) For F3

(6-22958) For Dash-9

(6-22959) For Atlantic Steamer

(6-14018) For Command Upgradeable GPs

Die-Cast Trailer Frame

- Die-cast frame
- Detailed rubber wheels
- Plastic mud flaps
- Moveable frame support
- Length: 8"

(6-12852) \$7.95

Lionel Train Book

- Tips and tricks on building and maintaining your model railroad

(6-62985) \$14.95

Lubrication/Maintenance Set

- Includes gear lube, oil applicator, track cleaning fluid, track-cleaning eraser and cleaning instructions

(6-62927) \$14.95

Smoke Fluid

(6-62909) \$5.45

Die-Cast Metal Sprung Tracks

- Upgrade your Rolling Stock trucks
- New metal armature
- Quick and easy to install
- Add weight & improve tracking

(6-14078) \$12.95

GP-9 B-Unit Deluxe Upgrade Kit

Add function and realism to your Lionel GP-9 B-Units. These easy-to-install kits include everything you need to add ElectroCouplers and to make your existing lights direction activated, all ready to go on your choice of black or silver preassembled trucks.

(6-22962) \$99.95 w/Black Trucks

(6-22979) \$99.95 w/Silver Trucks

GP-9 B-Unit Standard Upgrade Kit

This easy-to-install kit includes all parts necessary to add ElectroCouplers and to make your existing lights direction activated.

(6-22961) \$59.95

TRAINMASTER COMMAND BASIC UPGRADE KIT

This easy-to-install, no soldering required upgrade kit will allow all Command Ready locomotives to operate in full Command control.

It provides all features in the TrainMaster Command system, including the option of operating your engines in Command or traditional mode.

Features and sounds available for a specific locomotive are dependent on the features and sound system the locomotive is equipped with, and the components of the Lionel TrainMaster system that are in use.

This upgrade kit is designed for use only on locomotives that are designated "Command Ready" in catalogs since 1998; other locomotives, including those previously designated "Digital Ready", will require additional electronic modifications.

(6-22960) \$39.95

RailSounds UPGRADE KITS

This easy-to-install, no soldering required upgrade kit is designed for use in locomotives that are Command Ready and equipped with Lionel SignalSounds. Simply remove the SignalSounds electronic board and sound chip, then install the RailSounds electronic board and sound chip to get all the expanded features of Lionel's RailSounds system!

Installation of the RailSounds upgrade kits is independent of the installation of Lionel TrainMaster Command; however, as with all RailSounds systems, not all of the RailSounds features are available without Lionel TrainMaster Command.

This upgrade kit is designed for use only on locomotives that are designated "Command Ready" in catalogs since 1998 which are equipped with SignalSounds; locomotives equipped with SignalSounds before the development of the Command Ready feature require additional modification.

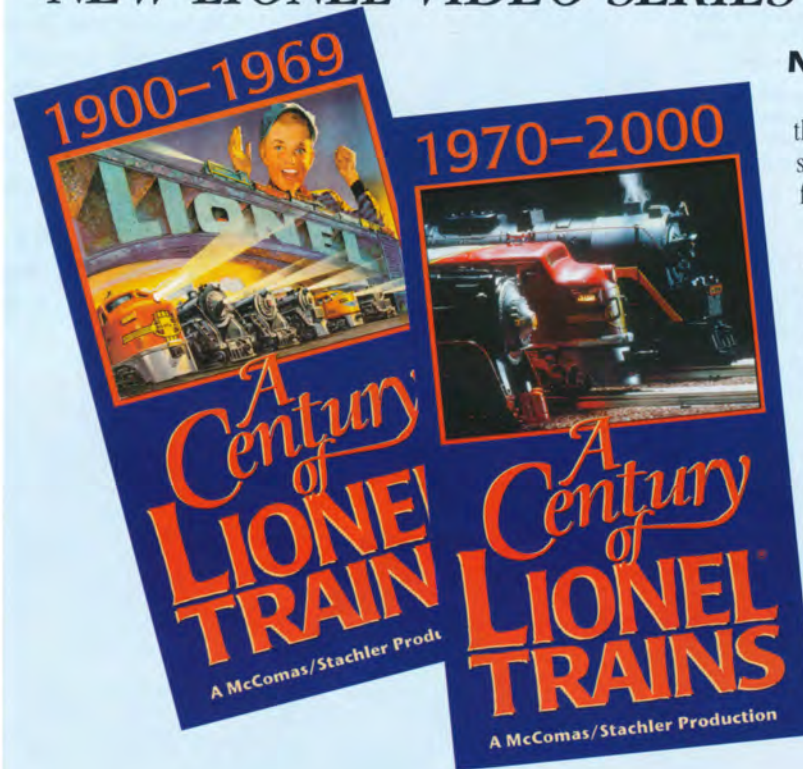

(6-22963) \$79.95 STEAM RAILSOUNDS

(6-22964) \$79.95 DIESEL RAILSOUNDS

RailSounds and TrainMaster Command Control were recognized by *Classic Toy Trains* magazine as one of the ten most important industry introductions of the decade!

NEW LIONEL VIDEO SERIES

produced by TM Books & Video

NEW A Century of Lionel

The two-part Lionel Century videos capture all the magic of 100 years of Lionel trains. The emphasis is on action and the stories of Lionel enthusiasts from around the country.

See all the great trains in action – starting with 2 7/8-inch gauge in 1900, and ending with the recently released scale Allegheny and Big Boy. See the State Set, Blue Comet, Hudsons, Streamliners, F-3s, GG-1s, Daylights, the classic accessories and more. 100 years of Lionel trains, with all new footage. 60 minutes, Stereo.

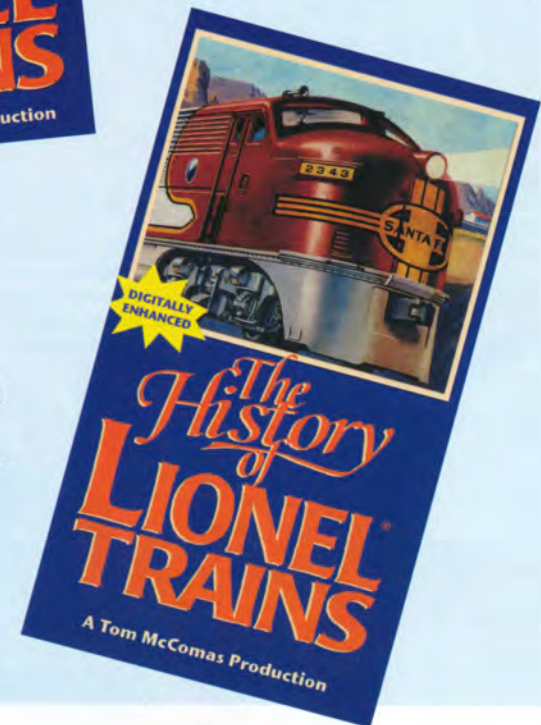

(6-14075) A Century of Lionel, 1900-1969 \$19.95

(6-14076) A Century of Lionel, 1970-2000 \$19.95

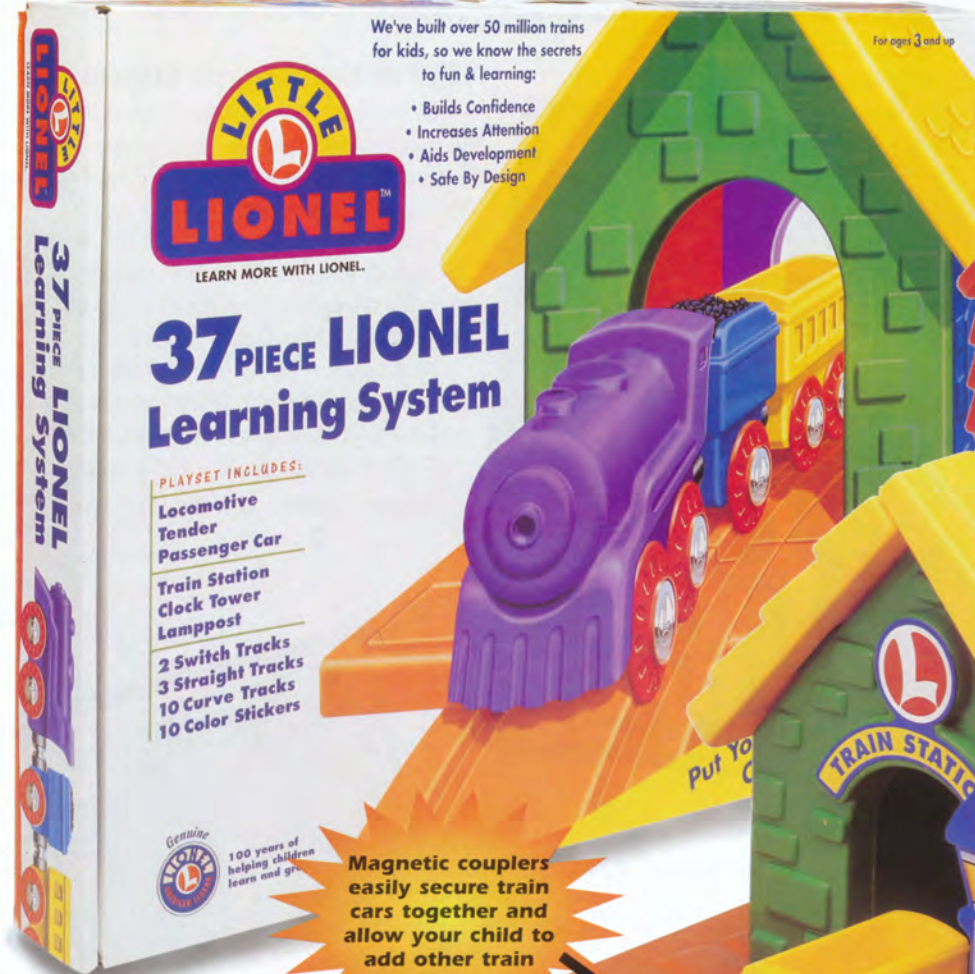

The History of Lionel, The First 90 Years

We trace the man and his trains through the boom times and bad times of 20th Century America – 90 years of Lionel trains. See the Standard Gauge classics of the '20s, the streamliners and scale models of the '30s, the Postwar legends that made Lionel the biggest toy company in the world in the '50s, right up to the new Lionel of the '90s. We are happy to re-release the digitally enhanced classic as part of Lionel's 100th Anniversary celebration. 50 minutes, Stereo.

(6-14073) \$19.95

Preschoolers will discover the joy of trains with fun

We've built over 50 million trains for kids. We know the secrets to fun and learning and we've made sure that all of our Little Lionel products build confidence, increase attention, aid development and are safe by design. Little Lionel trains and tracks are made from high quality plastics for exceptional durability. Our track is built for ease of assembly and all of our Little Lionel train cars and accessories work together no matter which pieces kids choose.

37 PIECE LIONEL LEARNING SYSTEM

Playset Includes:

- Train set with locomotive, tender and passenger car
- Train station with clock tower and lamppost
- Tons of track: 2 switches, 3 straight tracks, 10 curve tracks
- 10 color stickers

(7-75000) \$19.95

Both boys and girls will love building their first Lionel layout with easy-to-assemble train station pieces and track.

Magnetic couplers easily secure train cars together and allow your child to add other train pieces.

Compatible with Brio® Wooden Railways. Brio is a registered trademark of Brio Corp. which is not related to Lionel in any way.

Little Lionel tracks are made of "house-friendly", lightweight plastic and are easily cleaned with soap and water.

(7-73005) Boxcars \$5.95

(7-73007) Tank Cars \$5.95

(7-72003) Caboose \$3.95

100

100 years ago, the fruitful mind of Joshua Lionel Cowen envisioned an idea that grew to be one of the most recognizable icons of the 20th Century - Lionel Electric Toy Trains.

Kindled by enthusiasm and fueled by his commitment to integrity, quality and innovation, this idea sparked the flame that still burns brightly today. A torch is now held high in the hands of a new generation that is proudly leading the way into the 21st Century. This torch symbolizes the greatest model railroad company in the world - Lionel Electric Toy Trains.
